TIVER COMPLAINT. This disease is dis-A covered by a fixed obtuse pain in the right side under the short ribs, attended with heat, unexciness also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color, or yellow, like those afflicted with aundice-difficulty of breathing, disturbed rest, attend ed with a dry cough, difficulty of laying on the left side; the body becomes weak, and finally the duesse terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Hartich's Compound Tonic Strengthening and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing will be performed. Thousands can testify to the fact. (K)- For sale by W. G. COOK, No. 3 N. Gay street.

"The Rev. L. Covert's Mixture, also now used so extensively for this affection by elergymen, belongs to the same class of stimulating expectorants, being one of those lucky combinations of medical agents which. while it premotes expectoration, does not impair the tone of the stomach. Of this medicine, we feel at lib exty to speak, since its composition is not held from the Profession, and we hope the proprietors will seen see fit to give it to the public. We venture to recommend it therefore, having employed it in our own case, and in the cases of many others with decided benefit. From the "Auturn Conference and Family Recorder"

of September 4, 1839. "Covert's Balm bids fair to mak among the first of specifics for most cases of Pulmonary Discuse. From having tested its salutary tendency, and more especially from the knowledge that it has won the confidence and received the commendations of many highly respectable medical gentleman, some of whom are welf known as the ornaments of their profession, we have no hesitation in speaking well of it. We have reason to believe that it is employed in the practice of some of the most scientific and judicious of the physicians of this place. The Rev.
