BALTIMORE CLIPPER.

HIGHLY IMPORTANT FROM BUENOS AYRES—RAISING OF THE BLOCKADE BY THE FRENCH FLEET. The New York Herald of the 10th inst. says:—By the arrival last evening of the brig Cervantes, Capt. M'Manus, in 48 days from Rio Janeiro, we received the highly important intelligence of the raising of the Blockade of Buenos Ayres, by the French forces before that city.

Our dates from Monte Video are to the 31st of October, and from Rio de Janiero to the 19th of November.

One of our fast sailing news clippers boarded the Cervantes late last night, and brought us this important news exclusively.

We annex the following extracts, translated from the Portugese papers.

All the intelligence relative to that important movement on the part of the French is contained in the letter taken from the 'Jornal du Commercio' of Nov. 19:—

MONTEVIDEO, Oct. 31, 1840. I have to communicate to you the important news we received yesterday from Buenos Ayres, by the French brig Vegie,

As soon as the commander of this vessel had a correspondence with the Admiral Dupotet, intelligence was conveyed from the frigate Athlante, to all the captains of the French vessels in that port, that they could proceed to Buenos Ayres.

It then appears that peace has been concluded and that the French question is settled, but the conditions of the treaty are unknown. The French were only informed of it, and advised to make the most of it. The French vessels in this port will, without doubt, improve the opportunity immediately.

There is a great deal of fermentation here against the French in consequence, and it is supposed they will suffer somewhat.

The vessels in this port are all nearly ready to start. It is supposed on good authority, that this government will go to war with that of Buenos Ayres. It will take instant measures to blockade that port as soon as the French leave.

Rivera says that the cause of Rosas will finish only on the point of the sword.

This news has stopped all commercial transactions. The last sale of Flour was at 16 dollars, and Salt at 9 reals on board. Exchange on London 45.

N. B, I have to say that persons on board of the Athlante assure me that the conditions of the treaty concluded between Rosas and Mackau are favourable to Rosas and to Buenos Ayres.

By this we learn that as soon as the French leave the Argentine, Rivera will commence operations against them. So they will have no peace. Rivera arrived at Montevideo on the 27th of October, and was received with enthusiasm. He immediately assumed the reins government. He was moving actively.

The intelligence from the several provinces of the Brazilian empire is satisfactory.

The territory on the Amapa has been abandoned by the French.

It was expected that good order would soon be restored in Maranham. The Imperialists had uniformly been successful over the rebels.

Nothing decisive had been received from Rio Grande. General Andrea was preparing to attack the Rebels. But Gonsalves said he would only treat with the Imperial government direct.

The attention of the Metropolitan province had been almost exclusively occupied with the voting for the electors who are to choose the members for the chamber of the General Legislative Assembly of the four years, 1841 to 1845. No serious disturbance had taken place. Every thing appeared favorable to the present ministers.

Cara was a little excited by the elections.

THE FRESHET. We received yesterday afternoon, at rather a late hour, the regular mails due from the north and east. They bring still further accounts of the late disastrous floods. A letter from Mauch Chunk, dated Friday evening, says:

"Our darkest forebodings have been more than realized; all our beautiful navigation above and below is swept away—dams, locks, lock-houses, inmates and all gone; those beautiful locks entirely swept away; the bridges above and below gone; the large railroad bridge at the end of the Narrows, the one at Lehighton Gap, &c. all gone. Out of 29 houses from Squire Sayres' to Lehighton, but 4 remain, and very many of the inmates gone with them. Those who heard them, say that their shrieks for help were most appalling; every account grows more dreadful—the river is a clear stream reaching from mountain to mountain."

The New York Signal of the 11th says the names of the two persons drowned near the Croton Works were Wm. Evans and Robert Smith. They were upon a tree which was taken down by the current, in sight of their friends who could render no assistance.

It is said that all the dams on the Lehigh have been swept off, together with mills, &c.

In Manayunk, two woollen factories, a paper mill, several dwellings and other valuable property have been destroyed. Several breaches occurred in the canal in the neighborhood of Flat Rock, and the bridge across the canal at that place was swept off, and lodged across the canal a short distance below.

The Connecticut rivers broke up without doing much damage. But the rail road at Norwich was so submerged that the cars were detained. Heavy losses are reported on the North River, at Catskill especially. The loss at the Saugerties water power is reported at $ 100,000.

At Pottsville, and in that region, so far as heard from, the destruction has been immense. A Pottsville paper of the 9th says there is no estimating the damages sustained in the borough and vicinity. The mining operations along the Schuylkill canal have been seriously injured. Many persons have lost their sole dependence. The anthracite furnace and steam grist mill sustained serious damages. Breaches along the canal are numerous and of great magnitude. Human life has also been in great peril.

Along the Delaware there is no possibility of calculating the damages. It is impossible at present to give any accurate account of the extent of injuries sustained by the late calamitous freshet; but we have reason to believe that they have been more fearful than we can yet form any idea of.

LIVER COMPLAINT. This disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach;—there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color, or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side; the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the Medicine a few weeks, a perfect CURE will be performed. Thousands can testify to the fact.

CHILDREN TEETHING.

AT this important period, LITTLE CHILDREN suffer very much, and should not be neglected. *Mothers* and *Nurses*, who have the care of them, should be cautious and apply such means as will relieve them. Dr. PARIS' SOOTHING SYRUP, for CHILDREN CUTTING THEIR TEETH, is pronounced by *Thousands* to be the most efficacious medicine yet discovered; it gives immediate relief to those little ones, (if used according to directions,) thus preventing FEVER, CONVULSIONS, and other dangerous symptoms, which often prove fatal. It is highly important to be very careful of whom you purchase this medicine, and not mistake the spelling in the name of PARIS, as there are several individuals representing themselves as Agents, who palm on the unwary a different article, which is not only useless, but a *Dangerous Poison* to Infants. ☞ Remember, all genuine has the signature of Dr. PARIS blown in the bottles, and the labels and envelope contain an entry, "According to an act of Congress," with the *fac simile* of the proprietor on the envelope. MACHINE PRINTING.

BULL & TUTTLE, BOOK & JOB PRINTERS, No. 7 N. GAY STREET, take this method of informing the public, and Printers generally, that they have now in operation, in their office, THE BELPER DOUBLE ACTION PRINTING MACHINE, recently imported by them from England, and that they are prepared to execute *PRESS WORK* thereon at lower rates of charge, and with greater despatch than can possibly be attained by any other Printing Press now in use. As the machine is at present used principally in the publication of the Clipper at night, they would be enabled to execute the press work of an afternoon daily paper, as well as any other work that may offer. Printers, having *long numbers* on a form, would find it to their advantage to have the work done on the above machine, and are respectfully invited to call. n6-tf
