BALTIMORE CLIPPER.

METHODIST EPISCOPAL MISSION IN SOUTH AMERICA. The Methodist Missionary Society have some very interesting mission stations in South America. The oldest is at Rio Janeiro, under the general superintendence of the rev. J. Spaulding; another at Buenos Ayres, at the head of which is the Rev. John Dempster; a third, and the one recently established, is at Montevideo, under the superintendence of the Rev. William H. Norris, formerly of Brooklyn. Of this last mission a correspondent of the Boston Recorder thus writes from Montevideo:

"The Rev. Mr. Norris, of the Methodist Episcopal Missionary Society in the U. States, arrived from New York last year. He opened his house for public service on the Sabbath, and proving an acceptable preacher, quite an interest has been excited in his behalf, and in behalf of the Protestant cause generally. A Sabbath school has been established for foreign children, and a subscription has been set on foot for raising funds to build a suitable church for Mr. Norris. Five thousand two hundred patacones (equal to as many Spanish dollars) have been subscribed, besides a handsome organ. Two American mercantile houses give individually and collectively 1150 patacones. A lot has been selected and purchased, near the centre of the city, costing 4,000 dollars.—Application has been made to government for permission to build, and is now daily expected to be granted, when operations for erecting the house will commence. Mr. Norris occasionally preaches on board of some of the British and American shipping lying in the harbor, on Sabbath afternoons—visits the sick and poor and administers to their spiritual wants. It is worthy of remark that the contributions for the place of worship are collected from the English, Scotch, German, Swedish and American residents, whose unanimity is truly commendable."

We have read from time to time letters from the officers of the Navy who have been on the South American station, and they all speak favorably of the missionaries, and the apparent good which has resulted from their labors.

ANOTHER SURVIVOR. A correspondent of the N. Y. Sun states that Ransom Clark, recently deceased, was not the last survivor of Major Dade's command, as has been generally supposed and published. He further states that John Sprague, now in his sixth enlistment, and on duty at Bedloe's Island, is a survivor of the bloody and unfortune contest from which it has been stated, Clark alone escaped with life. His body (says the writer) bears honorable testimony to his presence not only on that day but on many other days of toil and blood in his country's service, and he is able and willing again to meet not only the savage but the more refined and enlightened foes of his country whenever and wherever called to that duty."

MRS. KINNEY. The Boston Post says: This ill-starred lady has determined to return forthwith to her native home, in Maine, in company with her father. The subscription opened for her behalf produced but a trifling sum.—The stubborn fact is, whether right or wrong, the women in general are prejudiced against her, and very few husbands cared about paying out cash for nothing, and at the same time displease their wives. The young, or unmarried men, of course have other uses for their money.

SAMUEL WILLIAMS, ESQ. Samuel Williams, Esq. formerly a distinguished banker in London, died in the city of Boston on Saturday morning last. The Boston Gazette says—"In 1820-23 no man in the commercial world filled so large a space in the public eye as he did.—Of late years he has been a mere 'walking shadow about town;' but we doubt not that some able pen will do justice to his memory."

THE DEAD MENDICANT. At a late hour on Monday night, Daniel Fisher, a city watchman, found a poor woman in West Broadway laying on the side walk, apparently overcome with the intense cold. He removed her to the watch house, and kindly laid her near the stove. In the morning she was dead. Deceased was a miserable dependant on the world's "cold charity."—N. Y. Sun.

AN INVENTION. Somebody at Nashville is making buckets with a machine moved by steam power. The whole process, from the rough block, of sawing, grooving, turning and finishing, is conducted by steam machinery. The manual force required to turn out five or six hundred buckets a month is only about four hands.

The New York Planet says of Mrs. Gaines, "she is a tolerable speaker." She deserves to be encouraged then, as an example to her sex, who, we believe, are generally *intolerable* 'speakers.' [*Richmond Star.*

Comb his head, ladies.

FIRE AT JERSEY CITY. On Tuesday the mansion of Dudley S. Gregory, Esq., in Jersey city, was nearly destroyed by fire. The house and furniture were among the most expensive in the State.

FROZEN TO DEATH. The dead body of an unknown female was discovered, yesterday morning, in the hall of house 139 Fulton st. She was in a sitting posture, and had evidently been frozen to death.—N. Y. Sun.

A MURDER. A man named George Brown, residing in Brecknock Township, Lancaster county, injured his wife so severely a few days since, that she died of the wounds. Both colored persons.

THE AMISTAD CASE was not taken up on Saturday by the Supreme Court of the U. States, in consequence of the absence of Judge Story, who was detained at home by indisposition.

Two females who were dying of extreme cold, were brought to the notice of the N. York proper authorities on Tuesday.

The second Concert at the Park on Tuesday, drew another full house.

Dr. Solomon Heine, has been held to bail in New York, for perjury.

LOOK OUT!!
"Caution" is the Parent of Safety.

AN ATTACK of the "PILES" may be positively prevented by using (when the premonitory symptoms are felt) the celebrated HAYS' LINIMENT. There are more than one thousand people in this city, and in the United States an immense number, who have suffered beyond endurance by this dreadful complaint, who keep themselves wholly free from attacks by applying this Liniment when they feel any symptoms of its approach—of this there is the most perfect proof.

LIVER COMPLAINT. This disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach;—there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color, or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side; the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the Medicine a few weeks, a perfect CURE will be performed. Thousands can testify to the fact.

A Beautiful and Suitable Present for Ladies.

THE LADY'S BOOK. We have scarcely penned a paragraph of praise to this paragon of periodicals, and another deserving still more is required. People may talk of puffing as much as they please, but we can say to the most heretical, let him but see the beautiful engraving prepared by Godey for the January number of his Lady's Book, and if he does not say that it surpasses excellence, then are we willing to knock under. The plate is called "Neapolitan Peasants going to the Festa of the Pic di Grotta," and a more life-like piece of art it has never been our fortune to see. There you have, as natural as life itself, a group of half a dozen peasants, on their way to the city, each carrying the fruits of their industry. In the fore ground are a small boy and girl, bearing on their shoulders a pole, on which are slung all sorts of viands; then comes a good looking matron, carrying on her head a basket, and holding by the hand a chubby-looking girl, who, like the rest, is carrying a bunch of grapes; and behind comes three or four others, following in the trail, while in the distance are several busily employed in preparing articles for market. Altogether, it is one of the very handsomest things ever gotten up for a periodical of any country, and is alone worth twice the subscription price to the Book. Subscriptions received at WM. N. HARRISON'S Periodical Depot, Ja14 No. 74 Market and 98 N. Gay street.

CHILDREN TEETHING.

AT this important period, LITTLE CHILDREN suffer very much, and should not be neglected. *Mothers* and *Nurses*, who have the care of them, should be cautious and apply such means as will relieve them. Dr. PARIS' SOOTHING SYRUP, for CHILDREN CUTTING THEIR TEETH, is pronounced by Thousands to be the most efficacious medicine yet discovered; it gives immediate relief to those little ones, (if used according to directions,) thus preventing FEVER, CONVULSIONS, and other dangerous symptoms, which often prove fatal. It is highly important to be very careful of whom you purchase this medicine, and not mistake the spelling in the name of PARIS, as there are several individuals representing themselves as Agents, who palm on the unwary a different article, which is not only useless, but a *Dangerous Poison* to Infants. ☞ Remember, all genuine has the signature of Dr. PARIS blown in the bottles, and the labels and envelope contain an entry, "According to an act of Congress," with the *fac simile* of the proprietor on the envelope. Unless it contains as aforesaid, touch it not. Price 50 cents. For sale by

MACHINE PRINTING.

BULL & TUTTLE, BOOK & JOB PRINTERS, No. 7 N. GAY STREET, take this method of informing the public, and Printers generally, that they have now in operation, in their office, THE BELPER DOUBLE 'ACTION PRINTING MACHINE, recently imported by them from England, and that they are prepared to execute *PRESS WORK* thereon at lower rates of charge, and with greater despatch than can possibly be attained by any other Printing Press now in use. As the machine is at present used principally in the publication of the Clipper at night, they would be enabled to execute the press-work of an afternoon daily paper, as well as any other work that may offer. Printers, having long numbers on a form, would find it to their advantage to have the work done on the above machine, and are respectfully invited to call. n6-tf
