BALTIMORE CLIPPER.

CITY COUNCIL. *First Branch*, January 26th. The Branch met according to adjournment. Present—Mr. Snyder, president, and all the members except Messrs. Peregoy and Hack.

The lobby did not present so formidable an array of "office seekers" as the day before. These are truly the days of expectancy—almost every man who has looked at a "log cabin," or shouldered the "hickory pole," thinks he has a claim to a portion of the emoluments in the gift of either devotee, from the Mayor up to the President. If we were desirous of nominating any man to special favor, we would point out that unassuming personage so faithful to his "hundred eyed monster." We are inclined to think he verifies the saying that "still water runs deep." One thing is certain—his good natured colleague will shield him from difficulty.

After the previous day's proceedings were read a message was received from the Second Branch, which was a report of the joint committee on streets; also, a majority report of the joint committee on claims relative to the German Reformed Church in Second street—both were concurred in.

Mr. Keyser offered a resolution, asking that the city commissioners be authorised to examine the steeple of the German Reformed Church, for the purpose of estimating and reporting the probable amount requisite to repair it.

The joint committee on harbors reported unfavorably relative to the appropriation asked for the repairing of Jones' Falls near Gay street bridge. The committee was therefore discharged.

Mr. De Loughery offered the report of the joint committee on health relative to the soap and candle factory of Michael Gallagher, which was favorable. Mr. Gallagher is therefore permitted to go on with his business as usual. It was the opinion of the Council that those citizens in the immediate neighborhood who felt aggrieved could have redress at law. The same was concurred in by the Second Branch.

A communication was received relating to the necessity of having a concave water course made across Aisquith street into Low. Referred to the committee on streets.

The joint committee on commerce reported relative to the petition of Robert Garrett and others, asking the appointment of additional inspectors of butter and lard. Laid on the table.

A message from the Second Branch, sanctioning the repeal of an ordinance relative to the shipping of flaxseed, was received, proposing that it may be shipped in any manner most convenient. There being nothing further before the Council, Mr. J. S. Brown moved an adjournment, which was complied with. The Council adjourned until to-morrow at half past 3 o'clock.

LATE FROM FLORIDA. By an arrival at Charleston from Florida, news from St. Augustine to the 8th inst. has been received, which brings the important information that Col. Harney, in his late expedition had succeeded in discovering the several Islands which have afforded a secure retreat to the savages; and the St. Augustine News says: "The charm of the Indian's security is broken up, and his strong holds upon which he relied for safety are open to enterprise and courage."

Chakika was killed by the indomitable perseverance and courage of private Hall, of the 2nd Dragoons. More distant than any of the Indians when they landed, he was engaged in cutting wood, and on finding himself discovered, he broke and ran for the grass. Several started in pursuit, but they all gave out except Hall, who followed until he had almost overtaken him, when Chakika smiled, and extended his hand, wet with the blood of his comrades, women and children. Hall levelled his rifle, and the ball sinking in the brain of the chief, he fell dead in the water, but a short distance from the island which was the depot of his plunder.

This chief was of great daring, headed the massacre of troops at Caloosahatchee, and led the attack on Indian Key. His loss to his people will be attended with results fatal to their confidence, and holds out to the Territory a subject for the warmest congratulations.

There is a family in Montreal, the father of which is a Frenchman, the mother a Russian, the eldest child a Maltese, the second a Sicilian; the third a Spaniard, and the fourth a Canadian.

We can beat this all hollow. There is a family in this city—the father a Scotchman, the mother a Yankee. They have six children *living*, the eldest of whom is eight years old, and all born in different states, as follows: the first in New York, second in Baltimore, third in Michigan, fourth in Ohio, fifth in Kentucky, sixth in Pennsylvania; and each born upon remarkable days. First—September 22, 1832, the day Sir Walter Scott died, and the anniversary of the marriage of the prolific pair. Second—November 25, 1833, the anniversary of the evacuation of New York by the British troops. Third—April 23, 1835, being St. George day, and the anniversary of the birth and death of Shakspeare. Fourth—January 8, 1837, anniversary of the battle of New Orleans. Fifth—March 17, 1839, St. Patrick's day. Sixth—July 4, 1840, anniversary of our national independence. On the wife's side the father is an Italian, the mother an Englishwoman.

MUTINY. On Friday last, says the Norfolk Beacon of Tuesday, the Revenue Cutter Van Buren, Capt. Prince, from a cruize, fell in with inside of Cape Henry, the British schr. Margarettesville, Capt. Johnson, 65 days from Jamaica bound to Baltimore, with a cargo of logwood, was short of provisions and water and her crew in a state of mutiny. Capt. Prince transferred the mutineers to the Cutter and sent a force to the Margarettesville, to work her up to this port where she arrived on Saturday morning last, and was placed in the hands of William Gray, Esq. British Consul.

VALLIER'S FRENCH PILLS, FOR THE CURE OF SECRET DISEASES. *One box of these inestimable Pills is worth all the Quack Medicines in the world.*

COMMENT. If we examine the nature of the above diseases, and the situation of the parts affected, we must consider it a very important object to be able to obtain a remedy at once certain in its action, and at the same time composed of such ingredients as will prevent the possibility of discovery while using it. It is a fact well known to many, that most of the remedies offered for these diseases are composed of such nauseous drugs, as to render it almost impossible to continue their use without creating a sickness at the stomach or other unpleasant consequences. Such being the case there can be no doubt but such a remedy as *Vallier's French Pills*, will meet the universal approbation, being entirely free from those objections; pleasant in their operation, and prompt in removing the disease. The proprietor would here remark, that the efficacy of these Pills in the disorders alluded to, are not based upon supposition; on the contrary, it is founded upon rational experience, having used them in a successful practice for upwards of two years, he feels confident of their superiority over the remedies hitherto employed.

☞ Price one dollar per box. For sale in Baltimore by SETH S. HANCE, ja11-y Corner of Charles and Pratt streets.

LIVER COMPLAINT. This disease is discovered by a fixed obtuse pain in the right side under the short ribs, attended with heat, uneasiness about the pit of the stomach;—there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a pale or citron color, or yellow, like those afflicted with jaundice—difficulty of breathing, disturbed rest; attended with a dry cough, difficulty of laying on the left side; the body becomes weak, and finally the disease terminates into another of a more serious nature, which in all probability is far beyond the power of human skill. Dr. Harlich's Compound Tonic Strengthening and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the Medicine a few weeks, a perfect CURE will be performed. Thousands can testify to the fact.

Opinion of the New York Press:

We have been favored with a copy of a steel engraving of the Light House near Caldwell's Landing, intended to illustrate the January number of the Ladies' Companion, published by Mr. Snowden, 109 Fulton-st. It is indeed a fine specimen of the art, and reflects no ordinary credit upon the enterprize of the conductor of that Magazine. The number will contain articles from the following writers:

Mrs. Lydia H. Sigourney, Mrs. E. F. Ellet, Mrs. Annan, Mrs. Ann S. Stephens, Mrs. Frances L. Oswood, Mrs. E. B. Steele, Mrs. Caroline Orne; Professors Longfellow & Ingraham; Mr. H. CHILDREN TEETHING.

AT this important period, LITTLE CHILDREN suffer very much, and should not be neglected. *Mothers* and *Nurses*, who have the care of them, should be cautious and apply such means as will relieve them. Dr. PARIS' SOOTHING SYRUP, for CHILDREN CUTTING THEIR TEETH, is pronounced by Thousands to be the most efficacious medicine yet discovered; it gives immediate relief to those little ones, (if used according to directions,) thus preventing FEVER, CONVULSIONS, and other dangerous symptoms, which often prove fatal. It is highly important to be very careful of whom you purchase this medicine, and not mistake the spelling in the name of PARIS, as there are several individuals representing themselves as Agents, who palm on the unwary a different article, which is not only useless, but a *Dangerous Poison* to Infants. ☞ Remember, all genuine has the signature of Dr. PARIS blown in the bottles, and the labels and envelope contain an entry, "According to an act of Congress," with the *fac simile* of the proprietor on the envelope. Unless it contains as aforesaid, touch it not. Price 50 cents. For sale by jy28-y WM. G. COOK, No. 3 N. Gay-st.

MACHINE PRINTING.

BULL & TUTTLE, BOOK & JOB PRINTERS, No. 7 N. GAY STREET, take this method of informing the public, and Printers generally, that they have now in operation, in their office, THE BELPER DOUBLE ACTION PRINTING MACHINE, recently imported by them from England, and that they are prepared to execute *PRESS WORK* thereon at lower rates of charge, and with greater despatch than can possibly be attained by any other Printing Press now in use. As the machine is at present used principally in the publication of the Clipper at night, they would be enabled to execute the press work of an afternoon daily paper, as well as any other work that may offer. Printers, having *long numbers* on a form, would find it to their advantage to have the work done on the above machine, and are respectfully invited to call. p6-tf
