Corner of Charles and Pratt streets. IVER COMPLAINT. This disease is dis-A covered by a fixed obtuse pain in the right side under the short ribs, attended with heat, pneastness about the pit of the stomach;-there is in the right side also a distension—the patient loses his appetite and becomes sick and troubled with vomiting. The tongue becomes rough and black, countenance changes to a. pule or citton color, or yellow, like those afflicted with jaundice-difficulty of breathing, disturbed rest, attended with a dry cough, difficulty of laying on the left side; the body becomes weak, and finally the duease terminates into another of a more serious nature, which in all probability is far beyond the power of humanskill. Dr. Harlieb's Compound Tonic Strengthening and German Aperient Pills, if taken at the commencement of this disease, will check it, and by continuing the use of the Medicine a few weeks, a perfect CURE will be performed. Thousands can testify to the fact. 33- For sale by W. G. COOK, No. 3 N. Gay street.
