BALTIMORE CLIPPER.

[Correspondence of the Baltimore Clipper.]

DEBATE IN THE CITY COUNCIL. On Monday evening last a very spirited debate arose in the First Branch of the City Council, upon the subject of having a partition erected in the Police Office. A bill in relation to the matter had previously passed the branch, but upon subsequent reflection, was reconsidered and nullified. Mr. G. not being satisfied with the vote, determined to have the affair brought, like a Phœnix from its ashes, into new life. He accordingly offered a resolution requiring that the city treasurer be authorised to pay out of the treasury the sum of seventy-five dollars for the above purpose. A motion was made to amend the resolution by striking out the seventy-five, and placing in its stead the word fifty. All things were now "cocked and primed," and the trembling resolution ready for dissection—each member seemed "eager for the fight." The elements were first put in agitation by Mr. B., who arose and enquired of Mr. G. the specific object of the resolution. Mr. G. observed that the contemplated improvement was indispensable—that it was designed for a receptacle of stolen goods, and that it could also be used as a *sanctum* to hold secret converse with thieves—that in his opinion it would facilitate the ends of justice, and enable the high constable to make safe stolen goods which himself and assistant officers had, in the discharge of their duties, taken from thieves, from being stolen again by other thieves, when justice was seated on her throne, and the old thief or thieves were being publicly examined among a promiscuous crowd of honest men or thieves, *pro.* or *con.* as the thing might be, or as the fates would have it.

Mr. B. indulged in rather a warm Hudibrastic rejoinder. He had no notion that the corporate authorities should sanction the reception of stolen goods, thereby making the whole city of Baltimore liable to indictment under the common law for a criminal or penitentiary offence. He wished to be informed what this secret business meant, &c.

Mr. G. again replied, and stated that all public functionaries who were delegated authority to arrest crime and bring roguery to light were in the habit of having private rooms for private purposes, which were sacred to invasion by any but those who had regularly graduated for the entrance into so unapproachable a sanctum—and that the high constable being an instrument in the hands of justice, should and of right ought to have the wonted protection and the specific sanctum, in order that he might bring *light* out of *darkness*, and *truth* from *secresy*.

Here the President, Mr. S., descended from the chair. He opposed the resolution in a warm and elaborate speech. Police officers, he observed, were employed by the city to enforce and carry out its ordinances—that *thief-catching* was out of their regular line of business. There are others, he remarked, whose business more properly partakes of that character, such as constables, magistrates, &c.—that the city did not [illegible] to make a business of that. the crumbs falling from which belonged to others.

Mr. G. was up again, and went it like a Kentucky lawyer on board a Mississippi steamboat. He appealed for the justness of his cause to the almost intuitive, self-evident knowledge of his brother magistrate upon the point at issue, and then dropped the subject, when Mr. P. that corpulent gentleman, who treads lightly upon the surface of mother earth, arose and made a speech, which, for uniqueness and brevity, cannot be equalled—it is as follows: Mr. Chairman—"N. [illegible] suff ced." O. K. said we to ourself, when the curtain dropped. The resolution was lost. P.—no partition.

VALLIER'S FRENCH PILL, FOR THE CURE OF SECRET DISEASES. *One box of these inestimable Pills is worth all the Quack Medicines in the world.*

COMMENT., If we examine the nature of the above diseases, and the situation of the parts affected, we must consider it a very important object to be able to obtain a remedy at once certain in its action, and at the same time composed of such ingredients as will prevent the possibility of discovery while using it. It is a fact well known to many, that most of the remedies offered for these diseases are composed of such nauseous drugs, as to render it almost impossible to continue their use without creating a sickness at the stomach or other unpleasant consequences. Such being the case there can be no doubt but such a remedy as *Vallier's French Pills*, will meet the universal approbation, being entirely free from those objections; pleasant in their operation, and prompt in removing the disease. The proprietor would here remark, that the efficacy of these Pills in the disorders alluded to, are not based upon supposition; on the contrary, it is founded upon rational experience, having used them in a successful practice for upwards of two years, he feels confident of their superiority over the remedies hitherto employed.

ENGINEER'S OFFICE,
BALTIMORE AND OHIO RAIL ROAD.

PROPOSALS are invited for the following description of MATERIALS to be used in the construction of the Railway Track between Harper's Ferry and Cumberland:

Sawed Lumber for Under-sills and Sleeping-pieces.

54,363	sticks of Scantling,	4½	6 inches,	and 20 ft.	long, cleast of stump-shot, containing 2,875,000 feet, board measure.
54,000	do	do	9x10	do	do 3,785,000 feet,

Making together, 6,000,000 feet.

Hewn Timber for Ties and Blocks.

165,600 sticks, hewn flat on two opposite sides, to a thickness of 4½ inches, and width of 6 inches, and 7 feet long.

30,900 sticks, flattened in same manner to a thickness of three inches—width and length same as the preceding.

Cast Iron for Chairs and Plates.

82,800	Joint Chairs, weighing 7½ lbs. each,			409,000 lbs.
52,800	Middle do	do	4	do 211,000
52,800	Bottom Plates,	do	2¾	do 145,000
	Total lbs. cast iron,			765,000 lbs.

Wrought Iron for Fastenings.

185,600	Screw-bolts, 7½ inches long, and ¾ in diam. wt 1 lb. each,	105,600
185,600	Nuts for same, (1 7-8 sq'rs, 9-16 thick,) wt. ½ lb. each,	92,800
185,600	Washers, of a wedge form, 3½ inches long by 2½ wide, and ¼ inch average thickness, and weighing 9 16 lb.	59,136
165,600	Plates of rolled Zinc, same length and width, and 1 16 thick, weighing 10 to the pound,	10,569
844,800	Hook-headed Spikes, 4½ inches long, 7-16 square in the shank, and weighing 4½ oz. each,	224,716

The *Sawed Lumber* may be of white or yellow pine, with not more than an inch of sap on two edges of the stick; free from large knots, shakes or decay of any kind. A portion of the 4½x8 scantling may be proposed for to be furnished, of white oak, under the same conditions as to quality. The points of delivery may be at Baltimore, Georgetown, Harper's Ferry, Cumberland, or any other point upon the line of the road, and the proposal will state the places as well as times at which the Lumber will be furnished.

Proposers to whom more than one of the places just named are accessible, will separately state their prices for delivery at each; so as to allow an option to the Company in regard to them should the proposal be accepted.

The *hewn Timber*, intended for the cross-ties and support-blocks, may be of white-oak, rock-oak or chesnut oak, or of chesnut. It must be sound wood, and straight in one direction. If the proposer prefers delivering it in the rough state, and does not wish to undertake the hewing of it to the required dimensions he can so word his proposal, and in that case the size of the sticks must be such as to permit them, when dressed, to be of the full dimensions specified, clear of bark and axe-kerf. If the timber is cut while the bark is loose, it must be stripped off before the delivery. The delivery may be made upon any point of the line, between Harper's Ferry and Cumberland, and the points between which it will take place must be stated. There are to every mile of track 31,680 feet board measure of 4½x8, and 26,400 feet of 3x10 scantling, 1056 cross-ties dressed to 4½ inches thick, and 302 dressed to 3 inches thick. Proposals will not be received for a less quantity of any of the kinds of timber, than will lay a mile of track.

The *Castings* for the chairs and plates will be of an easy pattern—they must be of strong and sound metal, and smoothly cast—the contractor furnishing the patterns. The screw-bolts and nuts will be of sound, tough iron and made with exactness as to the required form and size. The washers will be of bar-iron, rolled with the proper section, cut off and punched for the passage of the bolt. The side plates similarly made. The hook-headed spikes to be of iron of as good a quality as that of the screw bolts.

The Iron Fastenings just described may be delivered at Baltimore, Harper's Ferry, Cumberland, or any point of the line of the road between the two latter places and the places and times of delivery will be stated in the proposals. There are to every mile of track 7656 lbs. of castings—1584 lbs. of bolts and nuts—591 lbs. of iron washers—105 lbs. of zinc plates, and 2247 lbs. of spikes. No proposal for a less quantity than will supply 10 miles will be received.

Monthly estimates will be made of the quantities of each kind of materials so delivered and four fifths of the value at the contract prices will be paid for the said four fifths in Baltimore City 6 per cent stock at par—or in the stock orders of the Company at par; and also reserving the option of paying for the remaining fifth in like manner, when the delivery of the whole quantity contracted for shall have been completed according to the contract.

If the materials contracted for or any part of them are not furnished at the times required, the Company may dissolve the contract and retain the one-fifth due on any which may have been already delivered, and no estimates or payments shall be made or on account of materials delivered *before* the time specified for commencing the delivery of the same. The monthly payments shall be made at the Company's offices in Baltimore, Cumberland, or Martinsburgh, Virginia, at the option of the contactor, and the final payments shall be made in Baltimore. The manner and times in which the materials shall be furnished on the different parts of the line will be specifically provided for in the contracts, and particulars will be given on application to the undersigned. It will be required that about one half of the whole quantity of materials shall be delivered as early as possible between now and the 1st of December next. A model of the rail and its supports and fastenings will be ready for inspection at the Company's office in Baltimore by the 20th current. The proposals will be directed under seal to the subscriber, either at Baltimore, Cumbertand, or Martinsburgh—and will be received up to the 15th of March proximo. By order of the President and Directors,
BENJ. H. LATROBE, Esq. Loc. and Cont'r.

CHILDREN TEETHING.

AT this important period, LITTLE CHILDREN suffer very much, and should not be neglected. *Mothers* and *Nurses*, who have the care of them, should be cautious and apply such means as will relieve them. Dr. PARIS' SOOTHING SYRUP, for CHILDREN CUTTING THEIR TEETH, is pronounced by *Thousands* to be the most efficacious medicine yet discovered; it gives immediate relief to those little ones, (if used according to directions,) thus preventing FEVER, CONVULSIONS, and other dangerous symptoms, which often prove fatal. It is highly important to be very careful of whom you purchase this medicine, and not mistake the spelling in the name of PARIS, as there are several individuals representing themselves as Agents, who palm on the unwary a different article, which is not only useless, but a *Dangerous Poison* to Infants. ☞ Remember, all genuine has the signature of Dr. PARIS blown in the bottles, and the labels and envelope contain an entry, "According to an act of Congress," with the *fac simile* of the proprietor on the envelope. Unless it contains as aforesaid, touch it not. Price 50 cents. For sale by
