COMMENT. If we examine the nature of the above \ diseases, and the situation of the parts affected, we must consider it a very important object to be able to obtain a remedy at once certain in its action, and at the same time composed of such ingredients as will prevent the possibility of discovery while using it. It is a fact well known to many, that most of the remedies offered for these diseases are composed of such nauscous drugs, as to render it almost impossible to continue their use without creating a sickness at the stomach or other unpleasaut consequences. Buch being the case there can be no duobt but such a remedy as l'alier's French Pills, will meet the universal approbation, being entirely free from those objections; pleasant in their opproprietor would here remark, that the efficacy of these Pills in the disorders alluded to, are not based upon their superiority over the remedies hitherto employed. 00-Price one dollar per box.
