AN APPEAL OF THE

WASHINGTON-TEMPERANCE-SOCIETY: The unexampled success which has crowned ! ciety of Bullimore, the extraordinary increase of members, and the general interest awakened in the cause of total abstinence from intoxicating. drinks, have induced us to apply for a charter to the Legislature of Maryland, that we might enjoy all the privileges of incorporated associations, and maintain an attitude of becoming dignity before the public.

One cherished object is, the erection of an edifice of suitable dimensions for the accommodation | Bectacles, &c. &c. of our own numerous and constantly increasing society, as well as for the convenience of other Temperance, Library, or Musical Associations, which may choose to occupy it.

The ground formerly occupied by Christ church, near Market street bridge, has been secured, and a more appropriate location, for a large public building, could not be desired.

We design to raise the money by stock, in shares of \$10 each, for the particulars of which, and plan of the building, &c. we beg leave to refer to the advertisement of the Executive and

Building Committees. It is our earnest wish to dispose of this stock, and we appeal most confidently to the members of Temperance Societies generally, to aid us in this landable enterprise. We shall furnish them with a most commodious place of meeting, and the very fact of many Societies convening at the same place, will tend greatly to concentrate our energies and redouble our influence.

: We appeal to the various Literary Societies of ourcity, who at present, have but limited or very expensive accommodations. The rooms we design to furnish, will be admirably adapted to the purposes of such associations. We appeal to property holders and capitalists to come to our aid, believing that a safer investment of money could not be made. We appeal to the friends of public improvement, and to men of architectural taste, as we design to creet an edifice which will be an ornament to our city, consecrated as it will be to

the cause of humanity, literature and science. A spacious public building of this kind has long could procure rooms sufficiently capacious for Holmes, having undergone a through overhaul during at \$1 per bottle. their lectures, during the present winter, and the past winter, are now in complete order; therefore then only, at an enormous rent. We now propose to furnish halls for the accommodation of such institutions, and we conceive that we have a right to call upon them for encouragement. We invite all who feel interested in the promotion of morality and science in our city, to aid us in this ble benefits will thereby be conferred on us and our posterity. We further and lastly appeal to the Ladies of our city, they being so much interested in the cause we have espoused—a cause so l fraught with blessings to themselves and the lesson next morning to breakfast.
