

BALTIMORE CLIPPER. MONDAY MORNING, MARCH 29, 1841.

"INDUSTRY MUST PROSPER." We remember to have once purchased a hat whose manufacturer had adopted the foregoing as a motto. We thought it appropriate; for there is nothing more certain than that indefatigable industry, combined with prudence, must result in prosperity.

Industry is necessary in all stations, if we would move successfully through life. Men who are too indolent to exert themselves, and sit idle under the hope that Providence will provide for them, are like the wagoner in the fable, who called upon Hercules to extricate his wagon from the rut, without putting his own shoulder to the wheel, and are likely to have the same response.

Maria Juliana Wilhelmina Skeggs, come out of the gutter you d-b-h. High sounding names beget no correspondent polish—neither will a learned profession confer distinction upon an ignorant pretender.

NATIVE AMERICAN SOCIETY. In the formation of political associations we should be careful not to get into extremes. The "Native American Society," although it no doubt originated in pure and patriotic views, yet seems to us to be too exclusive in its character, because it does not admit to membership those naturalized citizens who are as ardently and sincerely attached to the principles of our government and devoted to the interests of the country, as the most patriotic native.

BALTIMORE LYCEUM. A lecture on the brain, phrenology, &c. was delivered at the Lyceum on Friday evening last by Mr. Crowley, who exhibited a perfect knowledge of his subject, and expressed his entire confidence in the accuracy of the science of phrenology.

TO CORRESPONDENTS. We acknowledge the receipt of a number of communications both prose and poetical, some of which are good, others pretty good, and others again poor, very poor indeed. Our correspondents must excuse us for dealing candidly with them, or rather their productions. It is our prerogative, and we are bound to exercise it. We should be happy in an acquaintance with the real names of our poetical writers especially.

ARREST OF RAIL ROAD ROBBERS. Some robbers, who had been preying for some time past upon the Syracuse & Auburn Rail Road, N. Y., have at length been arrested. On the cars reaching Albany, one day last week, it was discovered that three packages had been stolen.

LATEST FROM RIO JANEIRO. By an arrival at New Orleans, we have dates to the 4th Jan. There had been no change in the political affairs of the country of late. The rebels in the district of Rio Grande still held out against that government, and there was no hope of their immediate submission.

LATEST FROM HAVANA. By a letter from Cienfuegos under date of the 18th ultimo, it appears that a very unusual spell of cold weather was experienced in that place, by which considerable damage was done to the sugar cane, plantains, maize and other fruits.

A MUTINY FRUSTRATED. There was like to be a mutiny on board the steamboat Wilmington, Capt. Marshall, while on her way from Wilmington to Charleston, S. C., on the 21st inst.—The plot was developed by the refusal of the chief engineer and firemen to do their duty, and when ordered by the captain persisted in their refusal.

ANOTHER ROBBERY IN BOSTON. The house of Mr. Andrews, a sexton, was entered while the family were at church, ransacked from cellar to garret, and a small trunk, which was locked up in a larger one and placed under a bed in the chamber, taken. It contained four hundred dollars in gold and silver, which the robbers carried off as their booty.

THE LADY'S BOOK. The April No. of this deservedly popular monthly has been handed us by W. N. Harrison, agent. As usual, it is replete with interest. It contains the conclusion of "Mr. and Mrs. Woodbridge," a story of domestic life, by Miss Leslie.

CANADIAN COMMERCE. The number of vessels cleared from the ports of Montreal and Quebec to Great Britain, during the year 1840, was 1079—tonnage 399,449, giving employment to 15,227 men. The principal articles of export were pot and pearl ash, 21,107 prls.; flour, 295,761 bls.; wheat 141,931 minots, and lumber in great quantities.

NEW MUSIC. A new song, called "I've torn thee from my heart," written and composed by J. H. Herwit, Esq., and published by Mr. George Willis, has been handed us. We have heard it performed by the author. Our own judgment pronounces it highly pleasing. We recommend it to the ladies.

A QUERY. Tacitus says, "In the early ages man lived a life of innocence and simplicity." Upon this, a critic remarks: "When was this period of innocence? The first man who was born into the world killed the second. When did the times of simplicity begin?"

FINE SPORT. N. K. Hynson and D. Townsend, Esq., shot, at Miller's Island, on Saturday last, sixteen swans, four geese, and a number of fine ducks. One of them was taken alive, and may be seen at the dwelling of Mr. Hynson, North Frederick street. It is a beautiful bird.

ANOTHER. The alarm of fire yesterday morning, about three o'clock, proceeded from the burning of a smoke house at the corner of Hillen and East streets, belonging to G. Cassard & Sons.—There was a considerable quantity of bacon in the building, which was destroyed. The damages, we learn, were covered by insurance.

Among the passengers in the steamboat Alabama which arrived at Norfolk on the 23d, was Com. Morris, recently appointed to the command of the U. S. ship Delaware, now fitting for sea at that station.

SHIPWRECK. We learn by the Norfolk Beacon, that the schr. Emily, Capt. Barnard, from Nantucket for Norfolk, went ashore near Wiltoughly's Point on Tuesday evening last, and bilged in about 30 minutes.

THE BANK BILL. passed a second reading in the House on Thursday. The Harrisburg Telegraph says it is now well understood that Gov. Porter has declared that he will not sign any bill relative to banks.

For the Baltimore Clipper. FIFTH OF APRIL, 1841.

Messrs. Editors: As the above day, the 5th of April, has been set apart by the total abstinence men of this city to celebrate the anniversary of the Washington Temperance Society, I would suggest the propriety of all citizens, friendly to the cause of temperance, to close their shops, stores, and places of business generally, to give persons in their employment an opportunity of turning out in the great procession.

N. B. All papers friendly will please give this a passing notice.

FROM FLORIDA. Extract of a private letter, dated Tampa Bay, Fla., March 7, 1841. "The General's (Armistead's) operations are paralyzed by a want of funds. He has received notices of remittances, (\$25,000 only), but nothing has arrived, not even warrants on Treasury notes, which will have to be converted into specie before being paid to the Indians.

FROM THE WESTERN FRONTIER. A letter to the St. Louis Republican, from Fort Leavenworth, gives an account of a most cowardly and bloody massacre, committed by some Kansas upon some Pawnees. The dastardly Kansas, sixty-five in number, took advantage of the Pawnee warriors in their encampment, and massacred all but eleven of the women and children found in it.

MOORE OF THE BOSTON ROBBERY. The Boston Transcript says:—"We understand that a hand cart, loaded with trunks, has been traced to the T. Wharf, and that an English vessel sailed about 12 o'clock on Tuesday night, for St. John, N. B., and there is some suspicion that these trunks might have contained the stolen property, and been shipped on board this vessel.

POISON. A very interesting little girl, the daughter of Mrs. E. Swearingen, died a few days since in Grand Gulf, from eating sugar plums prepared by a confectioner there. Dr. Wharton, who analysed the candy, found white lead to be the cause of the death. It is reported that this unfortunate event may induce a greater degree of caution in parents generally.

FIRE. The fire on Saturday morning, between three and four o'clock, was in a rear building attached to the dwelling of Charles F. Mayer, in Franklin street. Our firemen, with their accustomed alertness, were on the spot, and checked the progress of the flames before any very serious damage had been sustained.

AN EXPLOSION took place among the fireworks prepared for the pantomime of "Dame Trot," at the Tremont Theatre, Boston, on Monday last, by which the face of Mr. Jeffries was severely scorched, and his eyes rendered almost sightless.

REMOVAL. It is said that Dr. Lardner and Mrs. Heavside will be married in the course of a week, and that there are circumstances which greatly mitigate the elopement of that lady from her husband with her lover.

GENEZONE. Four gentlemen went to Herring Run on Friday last, fished all day and caught one gudgeon! After they returned home, they had it cooked and made a supper on it. This is what may be called good luck.

ROBBERIES. There seems to be a perfect mania for robbing jewelry establishments. The latest intelligence from New Orleans states that the jewelry store of Mr. Mayer was robbed of \$7,000 worth, and that of Messrs. Taylor & Jacks of about \$15,000 worth.

EARLY VEGETATION. As genuine and well concocted a mint julep as one could desire to sip on a summer's day, says the Norfolk Herald, was "laid on our table" yesterday.

WE are of opinion that it did not remain long on the table. Ex-Recorder Morris has been duly and unanimously nominated as the next candidate for the Mayoralty, by the Van Buren party in New York.

APPROPRIATE. A broker in New York has two sons—one named Count and the other Discount. He must call the third Sharer.

REWARD. \$2,000 have been offered for the detection of the persons who committed the late extensive robbery in Boston. Perhaps they may be along this way.

THE Odd Fellows had a splendid celebration at Richmond, Va., on the 25th inst. The Star speaks of it as having been a very imposing sight.

ONE box in the St. Charles Theatre, New Orleans, sold for \$50. Oh! Fanny, would that thou couldst be a preacher, how the pews would be filled.

Mr. Van Buren visited the Park Theatre, on the evening of the 26th inst., accompanied by Mr. Forsyth and the Committee of Reception.

MARRIED. On Thursday evening, 25th inst. by the Rev'd C. B. Tippet, CHARLES W. WHITE to Miss ELIZABETH ANN PATRICK, both of this city.

DIED. On the 26th inst., after a lingering illness, which he bore with Christian fortitude and resignation, JAMES WALKER, in the 23d year of his age, died at his residence, on Saturday morning, after a severe and prolonged illness of nearly six months, Mrs. CECILIA KOCHE, in the 64th year of her age.

WHIGS TO THE RESCUE. Of whom? Of one who seems to be forgotten. Humble in his station, yet vigilant and active in the performance of his duty. While the distribution of offices is going forward, he is the malmed and suffering police officer, William Batchelor, to be utterly overlooked? Disabled in the execution of his duty, and now thrown out of the office in which he received his injury, fatal in fact, if he is not provided for, surely he has claims to consideration of no little moment.
