WEBB'S PATENT BURNERS, AND CAMPHINE OIL. TOR BALE AT No. 109 E. BALTIMORE STREET, between Sauth and Calvert streets, where Burners of every description can be obtained.

Those who are sceptical as to its sefety or economy, would, I trust be perfectly satisfied by examining the epinion of Professor Lock, of Ohio, on "WEBB's CAMPHINE," or by referring to the Journals of the Franklin and American Institutes, of Philadelphia and New York. All these desirous of obtaining a clean, brilliant, and economical light, will find it preatly to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

00-ASTRAL LAMPS ALTERED. N. B. We have appointed Josupa Atkinson Agent, No. 22 Market street, F. P., where all orders will meet with immediate attention. P. AUGUSTUS BAILEY, Agent

For the Proprietors. The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapmess:

New York, Merch 23, 1840. DEAR SIR-I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB's any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

THOMAS RILEY, Yours respectfully, Pinh Ward Hotel.
