ANDALUSIA. Bucks County, ) April 25, 1841.

Hon. John M. Clayton, Dover, Delaware. My DEAR SIE:- 1 am going to tell you, this morning, a very strange and true history about

\$618,640 16, as paid on the receipts of Mr. N. Biddle and J. Cowperthwaite," and "Cashier's Bank-application was made by letter to Mr. N. 1 Biddle and J. Cowperthwaite. from whom no reply has been received."

On reading this, no one could fail to understand about it had declined giving any answer, from which the natural inference was that these funds were never accounted for. This is evidently what the Committee intended to be understoodthis is what every body does understand.

Now, what I am about to say is so incredible that I would not say it unless I could clearly

prove it. It is— First, that at the moment of charging me with these 618,000 dollars, the Committee knew perfectly well, that nearly three hundred thousand

MOFFAT'S LIFE PILLS

AND VEGETABLE BITTERS. FETELE perfectly safe, unerring and successful treatment of a most every species of disease by the of MOFPAT'S LIFE MEDICINES, is no longer matter of doubt, as a reference to the experience of many thousand patients will satisfacto ily prove. Daring the present month alone, nearly one hundred cases have come to the knowledge of Mr Moffit, where the patient has, to all appearance, effected a permanent teure by the exclusive and judicious use of the Life Medicines-some eight or ten of these had been considered beyond all hope by their medical attendants .-Buch happy results are a course of great pleasure to Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow citizens.

The Lite Medicines are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough-acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating with and punfy ing the blood. For this reason, in aggravated case: of dyspepsia, the Life Medicines will give telief in a shorter space of time than any other prescription; in Fever-and-ague, Inflammation, Ferers of every deseription, Bick beadache, beartburn dizzinees in the head, pains in the chest, flatulency, impaired appetite, in every disease arising from an impurity of the blood, or a disordered state of the stomach, the use of these medicines has always proved to be beyond doubt greatly supetion to any other mode of treatment.

All that Mr. Moffet asks of his patients is to be particular in taking them strictly according to the directions. It is not by a next paper no ic", or by any thing that he himself may say in their favor, that he hopes to gain credit, it is alone by the results of a fair trial. the reader an invalid, and does he wish to know whether the life medicines will suit his own case?
