BANK OF THE UNITED STATES. By the proat a meeting of the stockholders of this Institution it was resolved to accept the law lately relation to the Banks of that State. Other resolations were also adopted, among which those sebunitted by Mr. Duane will arrest attention. If a portion of the funds of the Bank has been employed for political purposes, or in rewards for editorial labors, or otherwise improperly, we hope that the whole facts will be disclosed to the public. We never believed that the money of the Bank had been so appropriated; yet the adopfends in that way, would seem to give confidence to the impression which has prevailed with shape.

A long report, in reply to Mr. Biddle's publications, was submitted by the investigating comand, unless Mr. Biddle can remove the impressions which it cannot fail to make, he will be likely to suffer in public estimation. This report signated object, and for which no vouchers have

been produced. The expositions daily made strengthen the conviction upon our mind, that the whole banking system of the country is corrupt and corrupting; and that, unless it be purged of its impurities and regulated upon different principles, the whole fabric must fall into ruin.

A SHOOTING FRACAS. An altercation took place last evening, about 8 o'clock, at the grocery and liquor store of James Clifford, in Columbia street above Corc, between him and a Mr. James, Cheston, which resulted in the latter being shot in the face with a pistol loaded with common shot, by the former. Three shot entered different parts of the face of Cheston, one penetrating the right eye, another the left cheek, and one through the lip, shattering the teeth and perforating the tongue. A physician was called in, who dressed the wounds, though he was fearful that the shot entering the eye had touched the brain, and if so, that the wound might prove fatal.
