

BALTIMORE CLIPPER.

SATURDAY MORNING, JUNE 5, 1841.

THE OCEAN. This splendid sheet is presented to the reader to-day full of the richest kind of intelligence.

THE SUN. When men are detected in a dishonorable action, they cannot escape from responsibility by attributing their conduct to oversight or accident.

These questions we put thus publicly to Mr. Newkirk, from the fact that we personally waited upon him, and asked for whatever privileges others might possess; all of which, he, in his usual gentlemanly and obliging manner, acquiesced in.

IN ORDER that the citizens of Baltimore may have a better knowledge of the true characters of the proprietors of the Sun, we copy from the Philadelphia Chronicle, the statement of a transaction in relation to the transmission of the President's message from Baltimore to Philadelphia.

WHILEST on this subject we will enquire by what authority the United States' express conveyed extras for the Sun concern exclusively? and why it was, that the officers of the Baltimore and Philadelphia Rail Road Company permitted an agent of that concern to proceed in the car to Philadelphia, whilst the agent of another paper was denied the privilege?

NEWS ABOUT TOWN.

STATE COLONIZATION CONVENTION. The Convention met this morning, at 10 o'clock, and the proceedings having been opened with prayer by the Rev. Mr. Hamner, Mr. Chapman, from the committee appointed yesterday, handed in the report of the committee, accompanied by several resolutions.

WE have not room to give a full abstract of the speeches pro and con, in reference to this long debated third resolution; but will content ourselves with saying, that after elaborate and eloquent arguments had been advanced on both sides, the Convention adjourned, without taking the question, until five o'clock, P. M.

THE MYSTERY EXPLAINED—Double Dealing and Foul Play. As we predicted, the very low price of the Sun was resorted to, for the purpose of cheating the subscribers.

press train on Tuesday afternoon. Mr. Rousham, whom we despatched to Washington for the express purpose of forwarding the Message to us, arrived from Baltimore yesterday, and by us, we learn the proceedings that were resorted to by our neighbors. For the kindness to us, we are under great obligations; and to Messrs. Bull & Tuttle, of the "Baltimore Clipper," we know not how to express our acknowledgments, for their gentlemanly aid in forwarding our purpose—with them we are not personally acquainted, but cannot regard them in any other light than true and firm friends.

Mr. Rousham, who rode in the express wagon with Mr. Woodward, says he never rode behind such a horse, and beside a more expert driver—they went through Lombard street, Baltimore, at the rate of a mile in two minutes—leading the train of expresses—some six or eight in number.

When arrived at Canton, Mr. Rousham deposited his bundle on the tender of the locomotive; when Mr. ABELL, one of the proprietors of the Public Ledger, and Baltimore Sun, gave orders with what authority we know not—to the firemen, to "throw that bundle off."

These questions we put thus publicly to Mr. Newkirk, from the fact that we personally waited upon him, and asked for whatever privileges others might possess; all of which, he, in his usual gentlemanly and obliging manner, acquiesced in.

THE rascality and meanness of the whole tribe of persons connected with the Public Ledger of this city, is beyond all precedent—they have not a mite of honorable feeling in their carcasses—will resort to anything dishonorable to gain their end, and extort money with a greater gusto than did Shylock—a specimen of which was exhibited on Tuesday afternoon.

Mr. Chapman arose and stated that it was the result of a compromise between those members of the committee who were unfavorable to a compulsory removal of the free colored population of the State, and those who were unfavorable to that measure.

Resolved, That this Convention look to the removal of the free colored people and manumitted slaves of Maryland, with their own consent, to Africa, as the legitimate object of the Colonization system.

Resolved, That the idea that the colored people will ever obtain social and political equality in this State is wild and mischievous; and, by creating among them hopes that can never be realized, is at war with their own happiness and improvement.

Resolved, That the progress of Colonization enterprise under the direction of the State society has been thus far highly satisfactory; and that the present condition of the Colony at Cape Palmas, affords a happy earnest of the future prosperity of the Africa American commonwealth, on the western coast of Africa, and that the same now offers a home for the free colored people of this State, more desirable than any other place in this country or abroad.

Resolved, That the obligations of the people of Maryland to sustain and cherish the Colony planted by their authority, in the Western coast of Africa, is of a binding nature, and that this Convention recognize the same in their full extent.

Resolved, That the plan of independent State action, with regard to colonization adopted by the State society, pre-eminently recommends itself to all slaveholding States, whose interest and dignity alike require them to repudiate and prevent all extraneous interference with the subject of their colored population.

Resolved, That the establishment of direct commercial intercourse between Baltimore and the Colony at Cape Palmas, is a matter of great importance; and that the delegates to this Convention from the different points of the State pledge themselves to aid the efforts that may be made in their respective counties to procure a regular packet to run between the two points.

Resolved, That the Board of Managers be requested to aid forthwith through their agents, in the formation of the auxiliary associations in question, and to take measures to distribute through the state as early as practicable, the information that has been laid before this convention.

This resolution was opposed by the Rev. Mr. Emory, who, in a speech of much warmth and eloquence, treated it as inconsistent in its provisions, with the original objects of the Society.

Resolved, That the friends of the resolution on the other hand, contended that there was no threat held out in the language of the resolution, that it contained only an earnest appeal to the free people of color, not to suffer themselves to be blinded and misled by the sophistry and delusive reasoning of the enemies of colonization, awakening vain hopes that the day would arrive when they would be permitted to enjoy the same immunities and privileges as the whites—and warning them that, if they disregarded the advocacy of their true friends, the colonizationists, the time must arrive when circumstances would arise which would compel them to abandon the country, however contrary to their wishes.

Resolved, That while it is most earnestly hoped that the free colored people of Maryland may see that their best and most permanent interests will be consulted by their emigration from this State; and while this Convention would deprecate any departure from the principle which makes colonization dependent upon the voluntary action of the free colored people themselves, yet, if regardless of what has been done in anticipation of such result, to persist in remaining in Maryland in the hope of enjoying here an equality of social and political rights, they ought to be so socially and morally, that in the opinion of the Convention, the day must arrive, when circumstances that cannot then be controlled, and which are now maturing, will deprive them of the freedom of choice, and leave them no alternative but removal.

Resolved, That the friends of the resolution on the other hand, contended that there was no threat held out in the language of the resolution, that it contained only an earnest appeal to the free people of color, not to suffer themselves to be blinded and misled by the sophistry and delusive reasoning of the enemies of colonization, awakening vain hopes that the day would arrive when they would be permitted to enjoy the same immunities and privileges as the whites—and warning them that, if they disregarded the advocacy of their true friends, the colonizationists, the time must arrive when circumstances would arise which would compel them to abandon the country, however contrary to their wishes.
