[Correspondence of th & Baltimore Clipper.] WASI ILNGTON, June 7, 1841. In the House of R spresentatives this morning, before laying in their stock of Summer Clothing. as was expected, the abolition was was resumed. The question came up on the resolution of Mr. Wise, in relation to the adoption of the rules of the last Liouze, to which Mr. Adams had offered an amendment, viz: "excepting the 21st rule, which is helieby rescinded."

Mr. Wise, on leave, referred to a case some years 250, when the House had rejected an abolition petition, and in favor of which all the members from Massachusetts, except one, had voted. Mr. W. C. Johnson also referred to some in-

stances where he alleged that Mr. Adams himself had voted to reject an abolition petition.

Some cross-firing again took place between Messrs. Johnson and Adams, the latter of whom | _ 561 HANOVER STREET, a general assortment still persisted that the former had attempted to of Seasonable DRY GOODS, among which are super impose upon the House by the assertion he had made. Mr. A. then denounced the 21st rule as Prints; Irish Linens; Linen Drilling; Cambroons; and an abomination, and the essence of tyranny. He then replied at some length to the speeches of and UMBRELLAS-all of which will be sold very Messrs. Johnson and Wise of Thursday last, but more particularly to that of the former. Mr. Johnson had assented that he had received a letter from the Executive some time ago, approving that the letter be produced before the House."

Mr. Johnson said he had not the letter with nay, he was authorized by the Executive to say | the attention of gentlemen to a very handsome assort- | rience in the virtue of your Pille, sufficient to recomthat such were his views.

Mr. Adams contended that no member had any right to introduce into the House the views of the Executive. Such a thing, said he, was calculated to influence the votes of the House, which bias whatever.

Mr. King, of Georgia, in a very powerful speech replied. He alluded in the most glowing language to the evils which would inevitably arise from the continual agitation of this subject, and warned Mr. Adams, that should the Union be dissolved, he would have the unenviable notoriety of send- | turers' prices, by the bale, case, piece, or yard. The ing his name down with the ruins. Mr. K. contended that the general government had no right to interfere in any way with the institution of slavery in the District or elsewhere; and rather than see such a violation of the constitution, he would rather see the country reduced to a second [Sodom, covered with the ashes of desolation .-"Yes," said he "rather than see the constitution | qualities in the market, which he will sell cheaper than thus insulted by a set of fanatics, who fear neither God or man, I would rather see it torn into ten thousand tatters, and scattered to the four winds of heaven."

in relation to the past waste of time, moved the previous question, which was ordered.

The question was then taken on the amendment of Mr. Adams proposing to rescind the 21st Rule, and it was agreed to.

of Mr. Wise as amended. The resolution authorized the appointment of a Committee to revise the rules, and provided that the rules of the last House shall be observed until said Committee chall report. As amended, it reads "except the 21st rule, which is hereby rescinded."

Mr. Wise then moved to lay his own resolution on the table.

In the Senate, on motion of Mr. Clay, a resolution was adopted, calling upon the Secretary of the Treasuy to lay before that bedy a plan for the establishment of a fiscal agent to transact the financial concerns of government, as may be free from all constitutional objections.

The remainder of the day was taken up in a debate on a bill reported on Saturday, by Mr. Clay for the repeal of the Sub-Treasury law.

MOFFAT'S LIFE PILLS AND VEGETABLE BITTERS.

FITHE perfectly safe, uncring and successful treatment of a most every species of disease by the use of MOFFAT'S LIFE MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Mr. Moffit, where the patient has, to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines-tome eight or ten of these had been considered beyond all hope by their medical attendants .-Buch happy results are a source of great pleasure to Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow citizens. The Life Medicines are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough-acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating with and purifying the blood. For this reason, in aggravated cases of dyspepsia, the Life Medicines will give relief in a shorter space of time than any other prescription; in Fever-and ague, Inflammation, Fevers of every description, Bick headache, heartburn dizziness in the head, pains in the chest, flatulency, impaired appetite, in every disease arising from an impurity of the blood, or a disordered state of the stomach, the use of these medicines has always proved to be beyond doubt great-

ly superior to any other mode of treatment. All that Mr. Moffat asks of his patients is to be par ticular in taking them strictly according to the directions. It is not by a newspaper no ice, or by any thing that he himself may say in their favor, that he hopes to gain credit, it is alone by the results of a fair trial. the reader an invalid, and does he with to know who ther the life medicines will suit his own case? If so let him call or send to Mr. Moffat's agent in this place, and [procure a copy of the Medical Manual, designed as a l domestic guide to health, published gratuitously. He will here find enumerated very many extraordinar cases of cure; and perhaps some exactly similar to hi own. Moffit's medical office in New York, 175 Broad-

The Trustees have again the pleasure to express their approbation of the general management of the School under its talented principal, and that they take this occasion to say, that the Institution deserves a full share of public patronage. The discipline of the School is strict, yet enforced by mild measures.— Every attention is paid to the morals, improvements and comfort of the pupils. The health in Bel-Air inwhich the Academy is situated, is unsurpassed by that of any other location in the State, and the moral deportment of the inhabitants is all that can be desired by

the most fastidious. The duties of the School were resumed on Monday the 31 of May last. The scholastic year is divided into two sessions of five months and one week each.
