starved swine that prowl about our street, runand into our kitchens, have become an intolerable nuisance, and a disgrace to our city. It is no uncommon thing to find whole litters of pigs foraging about our back premises, and the old sow finally making battle, and disputing pugnaciously every inch of ground.

It is only a few days ago, that one of these voracious animals, seized a little girl who had a bit of bread and butter in her hand, and held on until knocked in the head.

The old plea, that hogs are the best scavengers, h may hold good to a certain extent, but will not apply to the swarms now abroad amongst us; if the evil is not abated the citizens will have, in MATTING, comprising all the various widths and their own defence, to arm themselves with pitchforks, and spit the invaders of their premises. MOFFAT'S LIFE PILLS

AND VEGETABLE BITTERS. FEREE perfectly safe, unerring and successful treatment of almost every species of disease by the use of MOFFAT'S LIFE MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Mr. Moffat, where the patient has, to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines-some eight or ten of there kad been considered beyond all hope by their medical attendants.-Such happy results are a source of great pleasure Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow-citizens.

The Life Medicines are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough-acting rapidly upon the secretions of the system-carrying off all acrimonious humors, and assimilating with and purifying the blood. For this reason, in aggravated cases of dyspepsia, the Life Medicines will give relief in a thorter space of time than any other prescription; in Fever-and-ague, Inflammation, Fevers of every description, Bick beadache, heartburn, dizziness in the head, pains in the chest, flatulency, impaired appetite, in every disease arising from an imputity of the blood, or a disordered state of the ctomach, the use of these medicines has always proved to be beyond doubt great-

ly superier to any other mode of treatment. All that Mr. Moffat asks of his patients is to be parlicular in taking them strictly according to the directions. It is not by a newspaper notice, or by any thing that he himself may ray in their favor, that he hopes to gain credit, it is alone by the results of a fair trial. the reader an invalid, and does he wish to know whe. ther the life medicine's will suit his own case? If so let him call or send to Mr. Moffat's agent in this place, and procure a copy of the Medical Manual, designed as a domestic guide to health, published gratuitously. He will here find enumerated very many extraordinary cases of cure; and perhaps some exactly similar to his lown. Mosfat's medicalostice in New York, 175 Broad. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.
