For the defence it was proven by - - Harney, one of the licutenants of the watch that, passing at the time the stone was thrown, he saw the man who throw the stone, and, upon that individual quitting the crowd and going off, he followed him, and kept in view with intention of getting | t aid to arrest him, but the man escaped him. He, Ladice. however, was close enough in pursuit to recognice him, and states positively that the traverser was not the man. Other witnesses were also produced whose testimony went to establish the -ame fact.

Further evidence was then produced by the State, which went to show that Hatfield had during the evening, made violent threats against | Pierce; but it did not cetablish the fact of his being the person who threw the stone. It was proved, however, that when the declaration was inade that the child was killed, some one in the l crowd said-"Hattield you have killed the child," to which a voice replied:-"I don't care a damn if I have"-but whether the first remark was addressed to the traverser or his brother the witness could not state.

DEAR BIR-I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB's PATENT LAMP, in my opinion, is much superior to any Lamp new is use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 20 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gus lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

It has been before the public for a long | time, and by its merits alone, has it risen to a degree of estimation not enjoyed by any other medicine, for the certain cute of the Syphillitic disease.
