

TUESDAY MORNING, JUNE 15, 1841.

CONGRESS. Whilst the Senate of the United States is progressing rapidly with the public business, the House of Representatives is proceeding with its usual "jog-trot" paces. Every inch of ground is disputed in the house be the business what it may-and motion after motion is made with the quickness of "the pewterer's hammer," until it is difficult for any man to tell what question is before the house. If the speaker were not a remarkably clear-headed man, he would be totally confused by the proceedings-but he sustains himself admirably, and members seldom venture to take an appeal from his decisions. The which ought to be adopted in the house also .-The people look for action on the part of their representatives; and by confining the attention of members to one subject at a time, as advised great piece of injustice to the south. by Mr. Ciay, they will not only act more specdily, but more intelligently, upon each matter. It is not expected that, at the extra session, the whole concerns of the country will undergo supervision.
