BALTIMORE CLIPPER.

UNITED STATES DISTRICT COURT.

WEDNESDAY, JUNE 16, 1841.

In the case of Malek Adhel, the counsel for the United States having admitted on Tuesday that there was no reason to suppose the claimants liable to any charge, in refercuce to the aggressions which the M. A. was now under trial for, no further testimony was offered on either side. The court was addressed by the counsel for the government upon points of law, after which the counsel for the claimant submitted the case, without argument to the court. The decision will probably be given to-day.

[Reported for the Baltimore Clipper.]

BALTIMORE CITY COURT.

WEDNESDAY, JUNE 16, 1841.

Present—Judges Brice, Nisbet and Worthington.

State vs. James Clifford, indicted for an assault and battery upon James McChesney. From the evidence of the complainant it appeared that he went into the traverser's store, and called for liquor, which was refused him, and some abusive language was used towards him—he then asked for a segar, which was given him, but, not liking the previous treatment, he threw the segar down, and then Clifford ordered him out of the store—afterwards Clifford came to the door and ordered him away—he then told C. if he had him out he would whip him. Clifford then went in and returning in a moment or two with something in his hand, ordered him off the pavement, and, upon his refusing to go, he raised a pistol and shot at him, wounding him with several shot in the face. Further evidence was submitted on the part of the state, amounting to about the same thing.

Some evidence was produced on the part of the defence, to shew that a conspiracy existed between McChesney and a man named Shillenburger, (indicted for an assault upon Clifford) that this attack should be made upon Clifford, but it was not made out. Testimony was also adduced proving that Clifford bore the character of a peaceable, quiet man.

State vs. Henry Shillenburger, indicted for an assault upon James Clifford. Complainant stated that before the affray between McChesney and himself he observed Shillenburger and McChesney standing together, and shortly after the affray, as he came to the door, Shillenburger struck him in the face with a stick, inflicting a severe wound.

Some evidence was here produced by the counsel for the defence, in the case of state vs. Clifford, to shew that the traverser was apprehensive of injury from McChesney, from the quarrelsome character of the latter, when he happened to be intoxicated. And here the two cases closed.

State vs. Thomas Armons and Joseph Beard, indicted for rescuing a prisoner from the hands of an officer, who had him in charge upon a civil process. From the evidence of the officer it appeared that the traversers were in company with John Gelbach, the individual arrested, that they advised him not to go to jail, as they would not; that a crowd followed them on the way to the office of the magistrate, among whom were the traversers; that upon reaching Gay street bridge, the crowd pressing upon the officers, Gelbach made a rush past the officers, and disappeared through the private entrance of a tavern near there. They pursued and made search for him, but could not find him. The traversers did not commit any act of violence.

For the defence several witnesses were examined to prove that the traversers were not guilty of any acts of violence—that they did not advise said Gelbach not to go—and that they were not near enough at the time of his escape to aid in it.

State vs. Augustus Brown, indicted for felony in steeling fifty penknives. From the evidence of an intelligent lad in the employ of Messrs. Norris & Beatty, it appeared that on a certain Tuesday in February last, the traverser entered the store and asked to see some fine knives, when witness took him to the drawer containing them, outside of the counter; the traverser examined them, spoke of the prices, and in the course of the conversation, the clerk came in, and the traverser continued the conversation with the clerk for a short time, after which he left the store. On the next morning, Wednesday, as the witness was engaged in opening the store, a young man came in and enquired for some knives and forks; while he was shewing them, a well grown boy came in, followed immediately by the traverser. The boy went round the counter, where the person was looking at the knives and forks, while the traverser went to the drawer in which the knives were kept, and stood with his back against the drawer, playing with the handle. In the course of about ten minutes, after enquiring about the other clerk, he left the store—in a short time the others also left; and witness, after putting up the knives and forks, went round and examining the drawer, found the knives gone. He had, previous to traverser's leaving the store, heard the drawer shut—he had that morning shut the drawer, it being partially open, and, in so doing, saw the bundle of knives in it. When he examined it after the traverser left, they were all gone. As soon as the clerk came in he went before the magistrate, who issued the warrant.—Some days after the prisoner was arrested; and he then identified him as the person whom he suspected of having taken the knives.

The testimony of Mr. Lowe, the clerk, went to identify the prisoner as the individual holding the conversation with him on the morning of the robbery, about the knives.

No evidence was offered by the defence; and, after a few remarks from the counsel engaged in the defence, and the State's counsel, the case was given to the jury, who, after a short absence returned a verdict of guilty.

State vs. Edward Conley, indicted for stealing three knives. The evidence on the part of the State went to prove the loss of the property; and its being found upon the prisoner; and the identification of the property. The officer who arrested him saw nothing like derangement about him, but thought he might be in liquor—did not, however, smell any on his breath—thought him in liquor because he laid down before he got to jail and cried murder.

The evidence of the warden of the jail and one of the subordinate officers went to prove that, from the time of his being brought to jail up to three or four days afterwards, the prisoner shewed evidence of derangement. Another witness, the committing magistrate, stated that he did not think he was drunk, but smelt liquor upon him—he had known him as a drinking man, who did nothing but go about and get drunk. A witness, summoned by the defence, stated that he had known him for some years, and had always known him to be a hard drinking man; but knew nothing of his honesty or dishonesty—had always looked upon him as inoffensive.

One of the jurors was sworn, who testified that upon the day the traverser was committed to jail, he saw the officers conducting him along Frederick street, when he laid down, and the officers dragged him along the street some distance, the man screaming in such a way as to lead him to think him delirious, but whether he was deranged or his conduct was the effect of liquor, he could not determine.

The Jury not being able to agree, retired to the Jury room, with instructions from the court to return a sealed verdict in the morning.

BALTIMORE COUNTY COURT.

WEDNESDAY, JUNE 16, 1841.

Keavins vs. Baltimore and Philadelphia Rail Road Company. This is a suit for damages for $10,000, for an injury done to the son of plaintiff, which resulted in his death—and also for the subsequent derangement of the mother for a certain period, alleged to have been caused by distress of mind, consequent upon the death of the child.—The case came before the court on Monday, and the examination of witnesses occupied the time of the regular sitting of the court up to yesterday morning, when the evidence was closed on both sides. Testimony was produced by the plaintiffs to shew that on the day when the unfortunate child met its death, (the 13th March, 1839,) the cars were travelling with great rapidity, the horses in a gallop, going at the rate of eight or ten miles an hour, and that, had ordinary care or prudence been used by the driver, when advised first of the boy's danger, he might have been saved. To rebut this, witnesses were summoned by the defendants, who testified that the cars were proceeding at the ordinary rate at which they pass through the city, of from four to five miles an hour—that the child in question, in company with two others, were playing between the track and the curb-stone—that the three attempted suddenly to cross the track within a few feet of the cars—that the two elder children got across in safety, but this boy, being quite young, only two and a half years old, becoming frightened, kept down the middle of the track—that the driver and brakesman, aided by several passengers who were on the front of the car endeavored to rein up the horses and stop the car in time to prevent injury to the child, but that before this could be effected, he was knocked down by one of the horses, and the car passed over him, crushing him so severely as to cause his death in a few hours afterwards. This, we believe, covers the principal points of the evidence in the case. After the closing of the testimony, the counsel for the defendants submitted several prayers to the Court, the arguments upon which occupied the balance of the day up to hour of adjournment.

MOFFAT'S LIFE PILLS AND VEGETABLE BITTERS.

THE perfectly safe, unerring and successful treatment of almost every species of disease by the use of MOFFAT'S LIFE MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Mr. Moffat, where the patient has, to all appearance, effected a permanent cure by the exclusive and judicious use of the Life Medicines—some eight or ten of these had been considered beyond all hope by their medical attendants.—Such happy results are a source of great pleasure to Mr. M. and inspire him with new confidence to recommend the use of his medicines to his fellow citizens.

The Life Medicines are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough—acting rapidly upon the secretions of the system—carrying off all acrimonious humors, and assimilating with and purifying the blood. For this reason, in aggravated cases of dyspepsia, the Life Medicines will give relief in a shorter space of time than any other prescription; in Fever-and-ague, Inflammation, Fevers of every description, Sick headache, heartburn dizziness in the head, pains in the chest, flatulency, impaired appetite, in every disease arising from an impurity of the blood, or a disordered state of the stomach, the use of these medicines has always proved to be beyond doubt greatly superior to any other mode of treatment.

All that Mr. Moffat asks of his patients is to be particular in taking them strictly according to the directions. It is not by a newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit, it is alone by the results of a fair trial. Is the reader an invalid, and does he wish to know whether the life medicines will suit his own case? If so let him call or send to Mr. Moffat's agent in this place, and procure a copy of the Medical Manual, designed as a domestic guide to health, published gratuitously. He will here find enumerated very many extraordinary cases of cure; and perhaps some exactly similar to his own. Moffat's medical office in New York, 175 Broadway, and for sale by the Agents. JAS. All those desirous of obtaining a clean, brilliant, and economical light, will find it really to their advantage by calling on the subscriber. The public may be assured of one fact, that we require no meters to ascertain the amount of Camphine consumed, as they register correctly and in plain English.

P. AUGUSTUS BAILEY, Agent
For the Proprietors.

The following letter to the Agent, exhibits the superiority of the Camphine over Gas or Oil light, in brilliancy and cheapness:

New York, March 23, 1840.

DEAR SIR—I received yours of the 19th instant, and proceed, as you request, to inform you that WEBB'S PATENT LAMP, in my opinion, is much superior to any Lamp now in use—the Camphine produces better light than Gas or Oil. I have burned Oil for five years, Gas for eleven, and Webb's Camphine for 26 months. I have a better light in my bar-room with five of Webb's burners than I had in the same room with eleven gas lights. In fact, I light my whole house at less expense with the Camphine than it cost me to light my bar-room alone with gas. I recommend it as being the cheapest and best light now in use.

Yours respectfully, THOMAS RILEY,
mh10-tf Fifth Ward Hotel.

BALTIMORE LOCK DISPENSARY,

"NO CURE NO PAY."

DR. HUNTER'S RED DROP. This long established and highly valuable medicine is now no novelty. It has been before the public for a long time, and by its merits alone, has it risen to a degree of estimation not enjoyed by any other medicine, for the certain cure of the Syphillitic disease. Prompt and effectual in action, yet harmless to the constitution, is its well established character, having never failed to give entire satisfaction in all the many thousand cases, where it has been used as directed.—These absolute and undeniable facts speak trumpet-tongued to the afflicted, and are the basis of a well founded hope of the phi anthropist, that this unequalled medicine may circulate far and wide for the benefit of the human race.

This medicine gives the prodigal a chance to repent. Thousands have been saved and radically cured, after suffering under the hands of impostors, by this medicine, and who with grateful hearts are ready to attest to its value, and have allowed themselves to be referred to.

Persons residing at any distance, can have medicine sent to them, packed secure from observation.

It was out of pure motives of philanthropy, that this medicine was first made public; the price always to remain $1 per Bottle, to be within the reach of the most unfortunate.

☞Letters addressed, (post paid) describing the case, mode of living, &c. will be promptly attended to. Direct No. 17 Harrison street.

DAILY TO THE SOUTH, Sunday's excepted.
Via the Chesapeake Bay and Portsmouth and Roanoke Rail Road,

THE BALTIMORE STEAM-PACKET CO. announce to the public that in accordance with the New Mail Arrangement, the Boats composing their line, viz: ALABAMA, Captain Sutton; GEORGIA, Captain Coffey; and JEWESS, Captain Holmes, will, on and after WEDNESDAY, the 26th of May, leave the lower end of Spear's wharf daily, (Sunday's excepted,) at nine o'clock, A.M. for Norfolk and Portsmouth, Va.

Passengers for Charleston will find the cars of the Portsmouth and Roanoke Rail Road Company, on the wharf, on their arrival at Portsmouth, ready to convey them to Weldon, N C., where they will always arrive in time to take the cars for Wilmington, from which point to Charleston is by the Steamboat, which leaves Wilmington immediately after the Passengers are delivered from the cars.

Passengers for Richmond, Petersburg, or intermediate points on James River, by leaving Baltimore on Monday, Wednesday, or Friday, will sleep on board the Bay Boat and be transferred to the James River Boat next morning.

The Steamboat Fox leaves the Black Water station on the Portsmouth and Roanoke Rail Road, every Monday, Wednesday, and Friday, on the arrival of the cars from Portsmouth, for Edenton and Plymouth, N. C., and returns every Tuesday, Thursday, and Saturday, delivering her passengers to the cars as they pass down from Weldon, enabling them to arrive in Baltimore next day, (Sundays excepted.)

RETURNING, one of the above Boats will leave Norfolk every night (Saturday being excepted) at 12 o'clock, and cross over to Portsmouth where she will wait the arrival of the Cars from Weldon, and depart for Baltimore as soon as the passengers and baggage are on board, arriving here in about 14 hours after departing from Portsmouth.

Should the Boat get an early start from Portsmouth, Passengers for Philadelphia and New York will have the opportunity of being placed on board the Philadelphia Steamboat in the Patapsco River, and will arrive in Philadelphia the same night by 11 o'clock, after having travelled 360 miles in 20 hours, without as much fatigue as would be incurred in walking from the Hotel to the wharf.

☞No freight will be forwarded on the day it is left, unless it is alongside, prior to 8 o'clock, A.M.
