BANKING.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon | Treasury Notes, payable three years from Aug. 15th, 1t64, with semi-annual interest at the rate of seven and three-tenths per cent. per annummoney.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold nominations of \$50, \$100, \$500, \$1,000 and \$5,000, } and all subscriptions must be for fifty dollars, or some multiple of fifty dollars.

As the notes draw interest from August 15, permust pay the interest accrued from date of note to date of deposit,

Parties depositing twenty-five thousand dollars and upwards for these notes at any one time will be allowed a commission of one-quarter of one | undersigned, as Trustee, will offer at public sale per cent.

SPECIAL ADVANTAGES OF THIS LOAN higher rate of interest than any other, and the best security. Any savings bank which pays its ing in the best circulating medium of the country, and it cannot pay in anything better, for its ! own assets are either in Government securities

Convertible into a Six per cent. 5-20 Cold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now werth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than nine per cent. premium, and before the war the premium on six per cent. U. B. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Taxation. But aside from all the advantages we have enumerated, a special Act of Conaress exempts all bonds and Treasury notes from local texation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to landers as those issued by the government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

Susscriptions will be necrived by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the
