subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annr

These notes will be convertib' at the option of the holder at maturity, in aix per cent. gold bearing bonds, payable ot less than five nor more TRONT STREET THEATRE. than twenty years from their date, as the Goverement may e ... They will be issued in de- THIS (Wednesdey); EVENING, Sept. 14th, 1864. as of \$50, \$100, \$500, \$1,000 and \$5,000, some multiple of fifty dollars.

As the notes draw interest from August 15, per- the beautiful and accomplished sons making deposits subsequent to that date has consented to appear for the last time in her? must pay the interest accrued from date of note | great personation of to date of deposit.

Parties depositing twenty five thousand doilars and upwards for these notes at any one time will be allowed a commission of one quarter of one MARYLAND INSTITUTE. per cent.

SPECIAL ADVANTAGES OF THIS LOAN! IT IS A NATIONAL SAVINGS BARR, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its ! depositors in U.S. Notes considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in Government securities ! or in notes or bonds payable in Government pa- Lb

Convertible into a Eix per cent. 5-20 Gold Bond.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. Per annum, | \$10-t16 for the current rate for 5-90 Bonds is not less ! than mineper cent. premium, and before the war the premium on six per cent. U. E. stocks was over twenty per cent. It will be seen that the LA actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

. Ils krempion from State or Nuncipal Taration. But aside from all the advantages we have ! enumerated, a special Act of Congress exempts cit bonds and Treasury notes from local texation. On the average, this exemption is worth about two per cent. per annum, according to the rate of texation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, ! the faith or ability of private parties, or stock ! companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

SUBSCRIPTIONS WILL BE EXCEIVED by the Trem surer of the United States, at Washington, the Reary M. Eash, several Assistant Treasurers and designated Depositaries, and by the
