U. S. 7:30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annumprincipal and interest both to be paid in lawful Money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Goverament may elect. They will be issued in demominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars, or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

Parties depositing twenty five thousand dollars | LVL and upwards for these notes at any one time will be allowed a commission of one quarter of one per cent.

SPECIAL ADVANTAGES OF THIS LOAN IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U.S. Notes considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in Government securities

or in notes or bonds pays 'le in Government pa-Convertible into a Six per cent. 5-20 Gold Boad.
