#### BANKING.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. THIS (Thursday) EVENING, Sept. 29th, 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum-Principal and interest both to be paid in lawful Mr. Suddea..... money.

These notes will be convertible at the option of Matikia... the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Gov. mominations of \$50, \$100, \$500, \$1,000 and \$5,000, some multiple of fifty dollars.

sons making deposits subsequent to that date must pay the interest accrued from date of note | to date of deposit.

#### SPECIAL ADVANTABES OF THIS LOAN IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the

best security. Any savings bank which pays its | LT depositors in U. S. Notes considers that it is paying in the best circulating medium of the country, and it connot pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government pa-

Convertible into a Bix per cent. 5-20 Gold Bond. In addition to the very liberal interest on the motes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less | than sine per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its Exemption from State or Municipal Paration. IlBut saids from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury actes from local taxation. On the average, this exemption is worth about two per cent. per sinum, according to the rate of - faxation in various parts of the country.

It is believed that he securities offer so great inducements to lenders as those issued by the government. In all other forms of indebtedness, lected by the faitz or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property ply. M.
