

BANKING.

U. S. 7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from Aug. 15th, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of \$50, \$100, \$500, \$1,000 and \$5,000, and all subscriptions must be for fifty dollars, or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

SPECIAL ADVANTAGES OF THIS LOAN It is a NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and the best security. Any savings bank which pays its depositors in U. S. Notes considers that it is paying in the best circulating medium of the country, and it cannot pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

Convertible into a Six per cent. 5-20 Gold Bond. In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than six per cent. premium, and before the war the premium on six per cent. U. S. stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

Its exemption from State or National Taxation. It also stands from all the advantages we have enumerated, a special Act of Congress exempts all bonds and Treasury notes from local taxation. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States. Up to the 20th of September, the subscriptions to this loan amounted to over \$40,000,000.

Subscriptions will be received by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositories, and by the FIRST NATIONAL BANK OF BALTIMORE, MD. SECOND NATIONAL BANK OF BALTIMORE, MD. and by all National Banks which are depositories of public money, and ALL RESPECTABLE BANKS AND BANKERS throughout the country will give further information and AFFORD EVERY FACILITY TO SUBSCRIBERS.
