THE ELECTION TO-DAY. When we take into consideration the numperless inducements to duty which present themselves to every patriotic citizen who is called upon to participate in the elections to-day, we find that never since the foundation of the Commonwealth was a crisis upon it so fraught with good or svil destiny, according as our people may decide. For nearly four years now, Maryland has been struggling to convince the South that she could have no part nor lot in a rebellion gotten up in the period the rebel chiefs have affected to believe her not in earnest—that with the issues fairly the Richmond dynasty. We say the time has and Margaret Haaley. come to determine this, and the vote on the New Constitution gives us ample chance to do her age it. Let us so cast our votes, that forecer hereatter in the history of the State we may be classed as emiscatly loyal to the Constitution and the Daion, as outling loose new and jected to murderous raids time and again, cor great railroad and other public works repeatrelly assailed and destroyed, our citizens murdered and their property taken, there are the gentle woolngs of Jeff. Davis to the arms of the Bouthern Confederacy-these are the persuasives to make us cast in our lot with theirs. To day we can repulse them with such and horror the crimes of the rebel leaders Calvert, is the Agent. have elicited,—then let none hereafter ever complicated with the purposes of traitors to destroy the Government.

THE NEW LIGHT HERE AS TO OATHS.

hims elf to show the disloyal a possible dodge ta relation to the prescribed oath, one is reminded by his way of putting it of the view taken of the same obstacle by a famous Kentucky guerilla:

Captured after some revolting atrocities, and inquired of by a Union man, "How he could "commit such enormities in violation of the "outh?" his answer was characteristic of the stock of clothing cannot be excelled. We com-

"tered it to me."

Now, barring the revolting profanity, how much better is the morality of the distinguished member of the bar here, when he tells the people of Maryland-in substance-"Take the cath; you may readily enough take "that, if you deem that it stands in the way "of your rights; but put the sin of violating "it-if any there be-on the Convention, which

"bad no right to prescribe it." But will the bar thank the honorable gentieman for this specimen of sharp practice? Will it elevate the profession in the oyes of an horest people, when one of its shiping lights takes such a position in regard to binding nature of oaths?

We road but recently that the courts of Caldornia were sadly puzzled to deales any oath which could bear on a Chinaman. sicest and their advocates here are really emulating the "Celestials." They are, I: seems, ready to take the most stringent "outb," and by a dedge never known before in the bistory of a Christian people, to skulk from its observance. Truly, the nation has fallen upon evil times.

## THE MAYORALTY.

The Hon. As there will be separate receptacles for the votes on the Constitution from the votes on the Mayoralty, voters, when they approach the polis, should examine their tickets particularly, and see that the ballots on the Constitution are put in the Constitution box, and the ballots on the Mayoralty question put in the Mayoralty box; for when the votes are counted, chould there he may votes on the Comstitution is the Majoralty box, they will be thrown out, and any votes on the Mayoralty question in the Constitution box, will also be rejected by the Judges.

TO THE JUDGES OF KLEC-It is well known that there is a conspiracy to secure the rebel vote of the city for Mr. Chap man. The plan contemplated involves the fail-ure of the Judges of Election on their refusal to

tery words to every voter, and to certify that it ass been taken by every voter. The object of this refusal to require that cath, to secure the votes of disloyal men for Mr

To effect this, Mr. Chapman is endeavoring to get the Judges of Election to have two ballotboxes-one for the voters on the Constitution, and one for the ballots for Mayor But this is flagrantly illegal; for the law authorizes only one ballot-box for the received and one for the rejected ballots. In the next place the name of Mr. Stirling wil

be printed on the same ticket with the vote for the Constitution. How can those ballots be distributed between the ballot boxes. If they are put into the Mayoralty box, then they must be lost to the new Constitution; so there will be no possibility of certifying that all the voters took the cash in the Constitution, uness it be administered to all whose ballots are out into the Mayoralty box. So that if one retson be remitted to vote for Mayor, without ta-

king the oath, every ballot for the Constitution and Mayor, in that box, must be rejected by the Nor is the difficulty avoided by the Judge asking the voter whether he votes on the toustitution: for the Judge has no legal sight to inquire into the contents of any ballot, any more than he has a right to open any ballot. The voter has a right to keep his own secret on the question whether he voted at all on the Constitution or at all on the Mayoralty, or on any city officer, and no distribution of the ballo's can be made be

tween the two boxes without violating the 142ht Nay, more, the declaration of the voter is the ground on which the Judge has a right to act; for he has a right to his secret and may see Gt to an-

swer untraly, as he has a right to refuse to answer at all an illegal question. It is then plain that two ballot boxes are not egal; that they can answer no honest purpose hat the discrimination attempted is impossible without violating the secresy of the ballot; are that if the oath be not administered to all who vote either, ballots for the Constitution end Mayor put into the Mayoral y box must be ha. to the Constitution, or votes against the Constitu tion and for Mayor, must be falsely counted and falsely certified against the Constitution. Thus legal votes be thus lost for the Constitulon, or lifegal votes against it, must be faliely

certified if there he any attempt to hold two elections; when the law provides for only one, such conduct is a great crime crime against the people and the law. such a crime deserves and will receive conlign punishment. Buch a dereliction of duty is an indictable crime, punishable under the elecion law of the State and the Constitution, has in

Baltimore city friends enough to see that such a crime should not go um unished. If any Judge reluse or fall to require that outh he will assuredly be presented before the Grand Jury of the Criminal Court of Beltimore City and that body will obey their oath and indict every Judge who is found derelict in his duty Gentlemen will be placed at each Precinct whose duty it will be to watch the conduct of each Judge, and take a note of the names of every Judge who admits any vote without requiring the cath prescribed by the Constitution, and of every person who rotes without taking feat oath, and the name of that Judge and voter will be handed
