THE CHANGES INEVITABLE IN THE STATE.

We took occasion in our last issue to speak of the certain prospect presented to the agricaltural interest of the State for recovering i itself, if but patient, and courageous, and true to its better destinies. We propose in this lesue to deal with this matter-vital to the well being of our whole people—to some) further extent. Let us precede what we probearing on the case.

in all the past history of the South in regard) to the culture of land by slaves, the normal condition of the planting interest has beenindebtedness - as a general thing always more the cities. The temptation, especially with the cotton and tobacco planters, to pledge the coming erep or crops for the requirites to enlarge operations was great, because with the breaking out of the war, the promise of bettering their condition seemed pertain.

Well, the projected revolution caught a vast number in that predicament, and with the rapid breaking up of the system, the insuber- | worse. The rest of the story needs hardly to h be repeated. "Compensation" to the amount of ten, certain,-perhaps twenty millions of dollars, distributed amongst sixteen thousand slave owners would have gone far to make the case one of less hardship; but the plantersto use that, in this case, effective phrase-"could not see it," and the consequences are plain. With their lands encumbered in many fessed discouragement, and often of despair. for them. But there are those not so desperate that call for all the forbearance pertible on the part of creditors, on the ore side, and of patience and courage on the other. Bo far as is presible, all due indulgence should be shown throughout, and the interests of the State at large, of cvery individual in it would

be promoted. Meanwhile, there is one more thing to he done, and that is—to use all reasonable efforts bely the interest so suddenly brought to embarrarsment and ruin. We have already had I the intimation thrown out from Washington that this might be done, and we know the considerate and kindly nature of the Presideat well enough to feel assured that he would still be willing to assist the State, embarrassed for the present in its great agricultural inter est, in "tiding over" the critis that has come

For the rest, there is no help for it but that a large amount of real estate in the lower connties, capacially, must change hands.— Under the old condition of things-(there is no use to disguise or palliate the fact) -the | imagine. Now, with the whole force i gone, there is nothing left for it in a vest number of cases but to part with a postion of the farm itself. So it is then, we say, that a great deal of farming property in the State anuat shortly change owners, a fact plain enough to be seen by a glanco at present at the advertising columns of any of the papers published in the rural districts. But after all, the case may not in this view of it be so bad as at first view it might appear. The great plantations of the State are to be divided and LOWAY'S PILLS AND OINTMENT. The sub-divided, it is true; but the owners may after all, and soon, be all the better off for it. We have heard of a man who lest two of his four hundred acres by endorsing for a friend He had nearly starved on the tract previously, and with the half of it gone he was rendered desperate. Driven to it, he turned in to the sons' make - 35 cents, to cents and \$1.49 per box Marker. We are constantly laying in our supproper cultivation of his modicum of land or pot. luft, and the result was that he arrived at a degree of prosperity he had never been able poorly the whole.

TTASHEESH CANDY. HASHERSH CANDY,

ASTHMA, MR. WM. H. READ: Dear Sir-I wish to inform you by this writing that I have been suffering with Asthma in its worst form for 50 years, spending within that time hundreds of sleepless nights in the most suffering manner. Everything failed to give reiel until I obtained a box of HASHFESH CAN-DY, which proved the most wonderful curative agency I over used, relieving me immediately whenever attacked by the disease. Ulten I have been to severely attacked that I could with great difficulty breathe at all, and was incapable of lying down at night, having such terrible smoth ering sensations. Redical men of all schools failed to afford the least relief. Without much

hone I resorted to this wenderful Candy in Januzry, 1:64, ever since which time I have slept without the least trouble by using some whenever threatened by an attack, and am thankful that such a remedy is to be found.
