around Franklin. RUOD'S DEFEAT CONFIRMED. WASHINGTON, December 1. The following towing official despatch confirming the reported victory in Tennessea Ins Juan reported at Headquarters:-

FRANKLIN, TENN. No. 10, 1764

To Major General Thomas The enemy made atteny end persistent attack with about two corps, commencing from Augusta, dated 26th (Saturday last.) places, was picked up, brought to marker, Harrison of the 1st Arkansas Cavalry, thenty-to-ce tractines to the banding for The Chronicle and Sentinel, of Augusta about 4 o'clock this afternoon and lasting until after dark. He was repulse i at all points with very heavy less--probably five or six thousand men. Our loss is probably not more than engitenth of that number. We have captured about one thousand men, including one Prigadier-General

(Signed) PARTICULARS OF THE BATTLE

Nashville, Don 1 - Parties who have urrived here from the front and were wit nesses of the battle of yesterday, describe the attack of the rebel force as most desperate. Four charges were made upo the Federal line of masked batteries in a body four lines deep. Each time the rebels were repulsed with fearful loss. The fort is on the north side of the bank of the river opposite the town, and encircling the town was the line of masked batteries.

Eye-witnesses say that this engage ment, in desperation and forious nighting. rallying his men. A rumor was in circu. November 34, was spoken yesterday.

About 7 o'clock last night. Leavy rein this port this evening or to morrow mornforcements reached Schofield, which ing. caused the complete rent of the rebel

forces. The city to-day is full of fugitives uceing hither from Williamson and other counties south of Nashvillo. They report | Were laid down."

south of Nashville, and numbers are flee ing to the city for protection

THE VERY LATEST.

NASHVILLE, Dec'r 1st.—Toe Federal guns. forces under General Thomas retired from Franklin last night, taking up a position and forming a line of battle south of Nashville about - miles. Skirmishing has been going on all day about five miles be distinctly heard in the city, but no want of confidence is felt by Union citi zens in the ultimate success of the Union

Interesting Trial of Projectiler. A RANGE OF SEVEN MILES AND A QUARTER OCTAINED.

(From the New Paven Journal.) A very interesting trial of the sub-cali-

back to jail, followed by a large concourses a triffe less than a half a degree, three of of long visaged rebels. The Yankcetrick which struck the eight inch bull's eye, in line, and the other about three feet be-Burleigh is a young man about 24 years low, a little to the left. The extraordinary of age, a thick set athletic man, apparent, closeness of the shooting showed that the y of Scotch origin, and boasts of having packing must have taken the grooves with been an efficer in the navy. He was not the utmost exactitude, thus securing the his neck so as to look after the light, disthe leader of the pirates, but held a secon- great object of all packing, the instantadary command to Bell. Howas, however, neons and complete filling of the grooves, the most officious, malignant and insulting preventing any loss of force by the escape of the gang, and if his wishes had been of gas by windage, and securing the rotalaw he would have been satisfied with ry motion to the projectile which insures Heretofore, no packing has completely

attained all of these requirements on sev-When first arrested, Burleigh told the eral accounts: all of which are obvisted officer that he wished to God his arrest had by this new mode of packing. On the armament was to have been put on at or ing, and buried itself in the hillside. The The third fell short about three feet, mis sing the target. The fourth and fifth struck and pierced the target and backing tearing it in pieces and destroying it entirely. The projectiles used were stee bolts, four and a half inches in diameter, and about sixteen inches in length, flatheaded, and kept in place in the gun by means of a sa ot or jacket, the packing being attached to the base of the case.was a tride over sixty pounds for each shot

The weight of the bolt and case as fired the charge of powder being the regulation charge of ten ponnds. The penetrative force of the projectile is without parallel in the history of proicctiles. On a previous trial, at the same place, with the same gun, at the same dis tance, and using the same charge of powder, two of these steel bolts were fired at. and through a target composed of eight inches of laminated iron plates, twelve inches of oak backing, and four feet hemlock timber. The velocity was so immense that the bolt not only went through the whole mass, but the case also went through the eight inches of iron and into the wood, where the bolt left it. One other shot was fired at the same target with the Sauce result, which destroyed the tarec tendering it useless for further trials. A few of these projectiles were made for the large Ames gun which has been on tried for so long a time at Bridgeport, by General Gilmore and staif, and Commodere Hunt. This gun is by all olds the yourself best which has ever been made, and owing to the immense charges of powder used in proportion to the size of the gun, it has almost been an impossibility to get any projectile which would bear the strain

gun with charges ranging from twenty to thirty pounds of powder, with the mo: We understand that the extreme runge these profesiles was seven miles and a quarter, a mile and a quarter beyond the extreme rangulof any other projectile fired from

A TWILIGHT WOOING. Its an awful thing to lose a friend by marriage! To see him drop into your room suddenly palsied by the conviction that he will tell his wife every word you have been saying. There's no use talking about

the thing—its actually indescribable. Do you approse I didn't feel jealous when Jack Marclyffe get married? Do rou suppose the green-eyed monster didn't inspire me with all sorts of unamiable feelings toward the little brown-oyed beauty who had cut me out so completely? If took some time to reconcile me to the new state of things. But when I found cut that she didn't object to my sitting on the balcony and speaking with Jack-ray, that she actually lighted our cigars for us. and then brought her little foot-stool and sat down beside us-that she laughed like a real of merry bells at our bachelor chances and mishaps-and that she liked to have me come to dinner on Sundays, then I thought Jack's wife wasn't so bad an in stitution after all. And one day, when she brought out her tiny wicker work-basket, and stood on tip-too to sew the loose but

"Jack," said I, "your wife is-well not exactly an angel, for I don't believe in angels about the house—but the sweetest little woman I ever set my eyes upon .--You won't be jealous, old fellow? "Jealous-no" said Jack, stretching appearing figure. "But I'll tell you what, Arthur-you ought to see Mary's sister. Sure enough, about two weeks afterward, as I came in at the sweet-brianshadowed gate, and paused to look at the crimson clove-pinks just opening their fringed petals, the silver tones of another voice sounded in the low-caved pizzza, and almost before I knew it, Jack Marclyfle's arm was through mine, and he was introducing me to a duplicate edition of his

ton upon my coat, I capitulated in good

wife-a scarlet-lipped, arch-eyed girl in white muslin, with a coral brecelet on From that moment I was gone—I didn't know whether I sat in Jack's velvet easy. chair or on the top of the rail fence; I said "No. I thank you," when Mrs. Jack asked me how I was-I stirred my cup of chocolate with a pen-knife, and tried to put the table cloth into my pocket, instead of :. handkerchief-and finally disgraced my self irrevocably by putting the match ber into the cradle, and depositing the baby on the marble mantle-piece. "Good gracious, Mr. Arden!" excisimed

Marclyffe, "what is the matter ?" "I believe-I think-I've got a cold in my head!" faltered I, looking at the time straight at Agnes, who was playing with her coral bracelet, and pretending not to 'Jack,' said I, that evening, as he went out to the gate with me, "there's no use

trying to mince matters-If I can't win Miss Agnes I shall take arsenic." Jack squeezed my hand; he had the m through the mill" himself "Do you think she cares for me, $J \omega e^{i \phi}$ I asked, plaintively, about a month of or ward. "I declare, honestly, I've the greatest mind in the world to jump of the pier, or hang myself, peaceably.

red-whiskered Carew? Oh. Jack. do be merciful—tell me what you really think Poor Marclyffe! It was about the thirtieth time he had been asked the same "Why, how can I tell, Arthur? You might as well ask me to read the Hinden alphabet as to decipher the mysteries of a woman's heart. Why don't you ask has

what does she mean by flirting with that

"Me ask her " and the cold chills ran through me like veins of ice. "Juck, I dare not, for my life " Jack burst into a laugh "Well. I can't give any better wivice, ' said he, "only remember, my boy, faint Six of these projectiles were fired from the heart never won fair la ly.

He turned away, and left me standing in the amber flush of the twilight, among the crimson clusters of cinnamon roses, and the tall coronals of gleaming lilies .-Up in the rosy sky the new moon hang, a curved thread of silver and one bright star hore its lance of pearl against the radiant horizon.
