MEDICAL. A RMY DYSERVERY.

THE GREAT REMEDY FOR Army Dysentery. CAN BE CARRIED in the POCKET-BOOK AND AS A TIMELY RE. SOURCE IN DISEASE 19 UNEQUALLED

No Officer or Soldier should go to the front to encounter the dangers of Minsus and wawholesome water withou; a package or two of these powders. They are put up in airtight metalise coverings, occupy little space. and can be taken in a tumbler ef water .-The prescription has been proved of the highest efficacy on the Chagres route, in Mexsco, Central America, and elsewhere, the haunt of these oftentimes fatal diseases of the bowels. It is the remedy of an eminent medical practitioner who has had an extensive experience as burgeon on the Panama Steamship line, where he had the worst cases of California fever and dysentery to deal with, and it can be relied on by all as a specific, when tried on the most delicate child or the adult, where the printed directions accompanying it are faithfully for lowed. It is known as

DR. F. J. AGRIMONTS TROPICAL DYSENTERY REMEDY, for the prompt and decided cars of DYSENTERY AND DIARRHOLA, (either recent or chronic). Cholera, Cholera Morbus or locseness of the Bowels, Summer Complaint of Children, and Billous Cholic. Pa: up in small air-tight Packages, which will keep in all elimates for any length of time.

TO THE PUBLIC This efficacious, scientific, and curative preparation, is now for the first time, at the wrgent solicitation of many personal friends who have experienced its good effects in private practice, confidently offered to the public, after Baring been the means of curing within the last reven years, at least Bato cases of these often fa al diseases, many of them on crowded passenger thirs and steamships, of which the discoverer was Burgeon, tossed about by the (), enn's swell, which is one cause of the great fatality attending these diseases on shipboard. It has also been used more particularly in the mines of Australia as Well as California, also in several parts of South America, Cen. tral America, and Mexico, and in various parts of the world, by one of the proprietors who travelled on account of his health, which was much impaired by his campaign in the American army in Mexico. It is well known that the terrible scourge Dysentery, sweers into hurriedly made graves many thousand annually, and that it is not confined in its rarages to any part of our globe, but ranges at large remorselessly, cutting down, in spite of the test medical aid called to relieve it, the tender infant as well as the aged and trembling adult in all Tariations of climate. In view of these facts, and the utter failure of the usual means used in many instances to relieve the afficted, the attention of a Physician and Surgeon in our Army in Mexico, who barely survived from the exects of the Camp Distemper or Army Diarrhora, and who had previously, as well as since, amequalled experience in Tropical diseases, was called to the above complaints, and the result is, the introduction to the public of the "Tropical Dysentery Remedy," which after one trial by those afficted, will make itself favorably known; and if taken, and the accompanying directions strictly followed, a speedy cure will be effected With these few remarks, it is now confidently offered to the public, who can rely that not one-half its merits, thus far can be known, as those relieved by it for the last seven years, were individuals of all civilized nations and climes, subjected to tropical influences on their way to the lands of gold, from the hardy mariner to the energetic traveller, as well as soldier, many of whom, as is well known, barely survived to reach their homes at the close of the war with Mexico, with himself, but who have been gratefully astonished at its effects under its administration by him. Throwing aside all "old wires' whims and fables." and the Astrocated Tampering

which has always preveiled in regard to these fatal diseases, the proprietors in conclasion would charge those who would not save their loved ones, when prostrated in consequence of these diseases, to give it a trial according to the simple directions and no physician will ever be needed in the above named dangerous diseases; one small packare often telieving many sufferers. TO MASTERS OF SHIPS .- To those who "do business on the great waters," it will especially be found invaluable, and no Shipmaster should fail to take it on leaving port, as It was on the sea more especially, "mid storm and strife" of the elements, its virtues were first more thoroughly made known and sbundantly tested by a Ship Sargeon, and that too, while in the West Indies, where it is usually more fatal and rapid in its course than in more temperate climates. The motion of the ship also, from his observation, always argravating the symptoms, and heretofore baffling the best well known efforts to relieve the patient, in the above diseases ar Travellers will find, from the compact form in which the powders are put up, that ther can be carried in the pecket, or with their wardrobe, without the slightest inlury. When required, are taken in cold water. No hotel proprietor, or Country Mer-| chant, should be without this justly celebra. ted remedy, as many opportunities present themselves in the course of the summer

where speedy and certain to lef is required by their ratrons. TESTIMONIALS. An examination of the following testimomials is extrestly invited; they do not purport to have been written in Missourt, Ran. sar, or some out of the way place, but are from some of the most influential and well known citizens residing in our midst, who can be found and will personally testify to the extraordinary effects of the Tropical Dysentery Remedy. BIR-Your remedy I do not heritate to say, from my own experience and that of my family, surpasses in its curative effects all medicines for Bowel Complaints, (especially of children,) [have everknown. ALS the success which has attended its exhibi tion in private practice, I cheerfully testify to, from my own personal experience, and regretas many others have to my knowledge. that you had not earlier made the public asquainted with it as I have often urged you to do. for I have no doubt in I)yseniery many valuable lives thereby might thereby
