### EDUCATION IN MARYLAND.

One of the immediate results of the revolution or change which has been so sweeping in the social condition of Maryland, consequent on the rebellion, has been a step forward in regard to almost everything that promises ere long to put us in the front rank of State; the Constitution being in one sense the luminous programme of a better and more glorious future, and the creation of the office of "Superintendent of Public Instruction," under that instrument, one of the first valuable fruits of it.

We congratulate every friend of progress here on this auspicious fact; and that the office has fallen to the lot of one through the enlightened discrimination of Governor Bradford—every way competent to fill it. The Rev. L. Van Buren, long known most favorably as one connected with educational institutions of the highest character, that they are always welcome.

The office in question is, no sinecure, and it is evident from the moment glances at the matter, at the claims on the time and energies of its new Superintendent, demanded at short notice, that do what he will be able to accomplish within a limited period, yet that he will be greatly embarrassed, unless every friend of the cause of education in the State comes to his aid. Let it be noted, then, —we quote from a circular this officer has just issued, that—

"The first duty which devolves upon the State Superintendent of Public Instruction is the preparation of a Bill for a uniform system of Public Schools."

"This Bill must be reported to the General Assembly within thirty days after the commencement of its first session under the new Constitution."

"The new Superintendent," says further, "in order to perform aught this important work, and as far as practicable, adapt the system to the actual needs of the State, much statistical information must be collected in the shortest possible period. I, therefore, propose to visit the several County Towns, for a conference with the School Authorities under existing organizations. Much valuable information will thus be acquired, and the Superintendent will then have the privilege of bearing the views of many friends of Public Education who have devoted their time and talents to the cause, and, from long experience, understand what must be done to increase the efficiency, and consequently the popularity of the New System."

Now all will see at once that the Superintendent of Public Instruction—we do hope to repeat it of this office, because we regard it in point of honor and responsibility second to none other in the Commonwealth—all will see, we say, that he has started out *exactly right*, that before he proposes to provide for the wants of the children of the State, that he intends to know precisely what those wants are. To learn this—what is not a trifling task, and it becomes the bounden duty of every one in the State who has the means to help him, to do so with all their hearts.

By way, then, of coming at the root of this matter as quickly and completely as possible, the Superintendent has addressed a circular to the prominent men in every county in the State, calling to them to meet at the polls of their respective towns, for a copy—*united, and worded*—of the *new Statute*, "Colon Shingle."

One of the good things in its line, we commend it to our readers in want of some thing to excite their feelings of merriment.

**MRS. DAY STERRETT INVITES THE PARTRIDGE AND SONG SPARROW**—The "Miller of Yonkers," in his *Advertiser* of yesterday, they exhibited a sumptuous stock of jewelry in all its departments. Go there and inspect.

We are sure that you will not only be pleased, but delighted with it—so much so, that you will, as we do, tell everybody to go there, and have a little of the *old fashioned* fun.

**CYBORG'S HONEY SOUP**—The celebrated Taddeus Cyborg, of the *Advertiser*, has made a new discovery, which he has named *Honey Soup*. It is a delicious concoction, and is sure to be a great success.

**NEW MUSIC**—We are indebted to the established firm of music publishers in New York, Messrs. Firth & Son, No. 603 Broadway, for a copy—*united, and worded*—of the *new Statute*, "Colon Shingle."

One of the good things in its line, we commend it to our readers in want of some thing to excite their feelings of merriment.

**DEACON JOHN PHILLIPS**—Sturbridge, Mass., whose great age has been the theme of much remark recently, has just received the following letter from President Lincoln:

**EXECUTIVE MANSION, Washington, Nov. 21st, 1864.—My Dear Sir.—I have heard of the incident at the polls of your town, in which you sought to procure a parson to take the liberty of voting, not my own church. I express my personal gratitude for the compliment paid me by the suffrage of a citizen so venerable. The example of such devotion to civic duties in one whose days have been so few, and who has given up all his time to the cause, and, from long experience, understand what must be done to increase the efficiency, and consequently the popularity of the New System."**
