## THE WEEKLY CLIPPER.

The edition of this valuable paper, issued as usual this morning, is well worthy the attention of all. As a cheap family paper, and as a faithful chronicler of current events, we doubt whether it can be excelled. The current number will be found unusually interesting, containing, as it does, a complete synopsis of Sherman's grand march through the South; the state of affairs in Tennessee, and the Southwest generally; the conduct of the Canadian authorities in reference to the St. Albans' raiders; the latest and most reliable reports of the markets; editorials; local matters; State news, and everything calculated to interest the general reader. It can be had at the counter, with or without wrappers, at the usual price.

## AFFAIRS IN MARYLAND IMPROVING UNDER THE NEW CONSTITUTION.

It is now degrees that Maryland is to realize the better destiny that is in store for her as the consequence of the adoption of the New Constitution. Whilst it is true that in almost everything that can be considered material advancement, she has always been a long distance ahead of the cotton States, yet when we come to compare her with other States never transmuted by the institution of slavery, the demonstration is so overwhelming against her, that the wonder is that there is not more done to effect her speedy abolition. The rebels have done their best to retard the progress of the slaves, and the sooner—after the pressure of the present rebellion is removed—we make "international law" to suit the necessities of the case on this side of the Atlantic, the sooner shall we have that position our due among other nations.
