The interest offered is, at present rates of other Government securities, such as to render them attractive, and their convertibility into gold-bearing bonds gives them an additional value."

THE
BALTIMORE
WEEKLY CLIPPER,
THE CHEAPEST NEWSPAPER IN THE STATE.
The undersigned would call the attention of all desirous of having a good Weekly Journal to the
BALTIMORE WEEKLY CLIPPER,
one of the largest and cheapest Papers published in this or any other State.
At a time like the present, when every one is anxious to be thoroughly posted as to the events of the war, and when almost every arrival from abroad brings some new and startling revelation in regard to the condition of European Governments, no person who wishes to keep up with these events should be without the means of doing so
CHEAPNESS,
when everything else almost has advanced in price more than one hundred per cent., is also a great requisite; and so it is, that notwithstanding the high price of paper and other printing materials, the undersigned proposes to furnish the
WEEKLY CLIPPER
at the low price of
$1.50 PER YEAR.
Let those who need such a paper, remember that for this comparatively small amount, they are furnished
THIRTY-TWO COLUMNS
of closely printed matter per week—that this comprises DOMESTIC AND FOREIGN NEWS, LITERARY, SCIENTIFIC AND AGRICULTURAL ARTICLES, information concerning the MARKETS, the FINANCES, EDITORIALS ON CURRENT TOPICS, ETC., and all given in a clear impression and on good paper, not excelled by any issue of the same class in the whole country.
To accomplish the enterprize, however, and to do the undersigned and his subscribers full justice, he must have
PROMPT PAY!
and therefore no paper will be sent after the time for which it is
PAID FOR IN ADVANCE,
and this without respect to persons. All papers not thus paid for will have to be promptly discontinued as soon as the advance payment expires
Without the adoption, rigidity, of the CASH SYSTEM, the proprietor would be unable to carry forward the enterprize; and therefore, all will see the necessity of complying with the terms set forth who desire to see a good Union paper freely circulate in the State
Let the friends of the paper in the country, recollect also that a
WEEKLY "PRICE CURRENT,"
accurate and reliable, will be amongst the matters furnished, something which *alone* would justify them in investing the small amount required for one year.
The aim of the new Proprietor is to furnish a
First rate
FAMILY AND BUSINESS PAPER,
embracing whatever may be *interesting, amusing* and *instructive*: and he hopes, therefore, that the subscription list of the *Weekly Clipper* will not fall behind any.
Subscriptions must be remitted in
UNITED STATES NOTES.
Postmasters and others sending in subscriptions, will be furnished one copy gratis.
WM. WALES,
Editor and Proprietor.

MEDICAL.

ARMY DYSENTERY.
THE GREAT REMEDY FOR
Army Dysentery,
CAN BE CARRIED in the POCKET-BOOK AND AS A TIMELY RESOURCE IN DISEASE IS UNEQUALLED
No Officer or Soldier should go to the front to encounter the dangers of Miasma and unwholesome water without a package or two of these powders. They are put up in air-tight metallic coverings, occupy little space, and can be taken in a tumbler of water.—The prescription has been proved of the highest efficacy on the Chagres route, in Mexico, Central America, and elsewhere, the want of these oftentimes fatal diseases of the bowels. It is the remedy of an eminent medical practitioner who has had an extensive experience as surgeon on the Panama Steamship line, where he had the worst cases of California fever and dysentery to deal with, and it can be relied on by all as a *specific*, when tried on the most delicate child or the adult, where the printed directions accompanying it are faithfully followed. It is known as
DR. F. J. AGRIMONT'S
TROPICAL DYSENTERY REMEDY,
for the prompt and decided cure of
DYSENTERY AND DIARRHŒA,
(either recent or chronic), Cholera, Cholera Morbus or looseness of the Bowels, Summer Complaint of Children, and Bilious Colic. The pills is small air-tight packages, which will keep in all climates for any length of time.
TO THE PUBLIC.
This efficacious, scientific, and curative preparation, is now for the first time, at the urgent solicitation of many personal friends who have experienced its good effects in private practice, confidently offered to the public, after having been the means of curing within the last seven years, at least 6,000 cases of these often fa al diseases, many of them on crowded passenger ships and steamships, of which the discoverer was Surgeon, tossed about by the ocean's swell, which is one cause of the great trouble attending these diseases on shipboard. It has also been used more particularly in the Colonies of Australia as well as California, also in several parts of South America, Central America, and Mexico, and in various parts of the world, by one of the proprietors who travelled on account of his health, which was much impaired by his campaign in the American army in Mexico.
It is well known that the terrible scourge Dysentery, ravages the hurriedly made graves many thousand annually, and that it is not confined in its ravages to any part of our globe, but rages at large remorselessly, cutting down, in spite of the best medical aid called to relieve it, the tender infant as well as the aged and trembling adult in all variations of climate.
In the hands of these facts, and the *utter failure* of the usual means used in many instances to relieve the afflicted, the attention of a Physician and Surgeon in our Army in Mexico, who barely survived from the effects of the Camp Dissentery, many Diarrhœas, and who had previously, as well as since, unequalled experience in Tropical diseases, was called to the above complaints, and the result is, the introduction to the public of the "Tropical Dysentery Remedy," which after one trial by those afflicted, will make itself favorably known; and if taken, and the accompanying directions strictly followed, a speedy cure will be effected.
With these few remarks, it is now confidently offered to the public, and no fear is entertained but that it will be found worthy of the confidence reposed in it by those who have experienced its good effects in private practice, confidently offered to the public, after having been the means of curing within the last seven years, at least 6,000 cases of these often fa al diseases, many of them on crowded passenger ships and steamships, of which the discoverer was Surgeon, tossed about by the ocean's swell, which is one cause of the great trouble attending these diseases on shipboard.
