THE
BALTIMORE
WEEKLY CLIPPER.
THE CHEAPEST NEWSPAPER
IN THE STATE.

The undersigned would call the attention of all desirous of having a good Weekly Journal to the
BALTIMORE WEEKLY CLIPPER,
one of the largest and cheapest Papers published in this or any other State.
At a time like the present, when every one is anxious to be thoroughly posted as to the events of the war, and when almost every arrival from abroad brings some new and startling revelation in regard to the condition of European Governments, no person who wishes to keep up with these events should be without the means of doing so.

CHEAPNESS.

when everything else almost has advanced in price more than one hundred per cent., is also a great requisite; and so it is, that notwithstanding the high price of paper and other printing materials, the undersigned proposes to furnish the
WEEKLY CLIPPER
at the low price of
$1.50 PER YEAR.
Let those who need such a paper, remember that for this comparatively small amount, they are furnished
THIRTY-TWO COLUMNS
of closely printed matter per week—that this comprises DOMESTIC AND FOREIGN NEWS, LITERARY, SCIENTIFIC AND AGRICULTURAL ARTICLES, information concerning the MARKETS, the FINANCES, EDITORIALS ON CURRENT TOPICS, ETC., and all given in a clear impression and on good paper, not excelled by any issue of the same class in the whole country.
To accomplish the enterprize, however, and to do the undersigned and his subscribers full justice, he must have
PROMPT PAY;
and therefore no paper will be sent from the Office but what is
PAID FOR IN ADVANCE,
and this without respect to persons. All papers not thus paid for will have to be promptly discontinued as soon as the advance payment expires. Without the adoption, rigidly, of the CASH SYSTEM, the proprietor would be unable to carry forward the enterprize; and therefore, all will see the necessity of complying with the terms set forth who desire to see a good Union paper freely circulate in the State.
Let the friends of the paper in the country, recollect also that a
WEEKLY "PRICE CURRENT,"
accurate and reliable, will be amongst the matters furnished, something which alone would justify them in investing the small amount required for one year.
The aim of the new Proprietor is to furnish a First rate
FAMILY AND BUSINESS PAPER,
embracing whatever may be *interesting, amusing* and *instructive*: and he hopes, therefore, that the subscription list of the *Weekly Clipper* will not fall behind any.
Subscriptions must be remitted in
UNITED STATES NOTES.
Postmasters and others sending ten subscriptions, will be furnished one copy gratis.
WM. WALKE,
EDITOR AND PROPRIETOR.

MEDICAL.

A REMEDY DISCOVERED.
THE GREAT REMEDY FOR
Army Dysentery,
CAN BE CARRIED in the POCKET-BOOK
AND AS A TIMELY RE-
SOURCE IN DISEASE IS
UNEQUALLED.

No Officer or Soldier should go to the front to encounter the dangers of Miasma and unwholesome water without a package or two of these powders. They are put up in air-tight metallic coverings, occupy little space, and can be taken in a tumbler of water or tea. The principles have been proved by the highest officers on the Chagres route, in Mexico, Central America, and elsewhere, the haunt of those otherwise fatal diseases of this hemisphere. It is the remedy of an eminent medical practitioner who has had an extensive experience as surgeon on the Panama Steamship line, where he had the worst cases of California fever treated by coal with, and it can be relied on by all as a specific, when tried on the most delicate children or the adult, where the printed directions accompanying it are faithfully followed. It is known as
DR. F. J. AGRIMONT'S
TROPICAL DYSENTERY REMEDY,
for the prompt and decided cure of
DYSENTERY AND DIARRHŒA,
(either recent or chronic). Cholera, Cholera Morbus or looseness of the Bowels, Summer Complaint of children, and Bilious Colic. Put up in small air-tight packages, which will keep in all climates for any length of time.

TO THE PUBLIC

This efficacious, scientific, and curative preparation, is now for the first time, at the urgent solicitation of many personal friends who have experienced its good effects in private practice, confidently offered to the public, after having been the means of curing within the last seven years, at least 6,000 cases of these often fatal diseases, many of them on crowded passenger ships and steamships, of which the discoverer was Surgeon, toward about the Ocean's swell, which is one cause of the great fatality attending these diseases on shipboard. It has also been used more particularly in the mines of Australia as well as California, and by several parts of South America Central America, and Mexico, and in various parts of the world, by one of the proprietors who travelled on account of his health, which he says was restored by champagne in the American army in Mexico.
It is well known that the terrible scourge Dysentery, sweeps into horridly made graves those many thousand annually, that it is not confined in its ravages to any part of our globe, but ranges at large remorselessly, cutting down, *in spite of the best medical skill* and relief to the contrary, the infirm as well as the aged and trembling adult in all variations of climate.
In view of these facts, and the *utter failure* of the usual means used in every instance to relieve the afflicted, the attention of a Physician and Surgeon in our Army in Mexico, who barely survived from the effects of the Camp Distemper or Army Diarrhœa, and who had previously, as well as since, unequalled experience in Tropical diseases, was called to the above complaints, and the result is, the introduction to the public of the "Tropical Dysentery Remedy," which, after one trial by those afflicted, will make itself favorably known; and if taken, and the accompanying directions strictly followed, a speedy cure will be effected
With these few remarks, it is now confidently offered to the public, who can rely that not one-half its merits, thus far can be known, as those relieved by it for the last seven years, were indebted to it (destitute and friendless, and ofttimes, subjected to tropical influences on their way to the lands of gold, from the hardy mariner to the energetic traveller, as well as soldier, many of whom it is well known, are left to perish, and reach their homes at the close of the war with Mexico, with himself, but who have been gratefully astonished at its effects unattended by salivation by him.
Throwing aside all "*old wives' whims and fables*," and the ABBREVIATED PEMPERINE which has always prevailed in regard to these fatal diseases, the proprietors in conclusion would charge those who would not save their loved ones, when prostrated in consequence of these diseases, to give it a trial; as they feel confident it is a *specific* and no physician will ever be needed in the above named dangerous diseases; one small package often relieving many sufferers.

TO MASTERS OF SHIPS.—To those who do business on the great waters, it is equally as beneficial to the invaluable Ship-master should fail to take it on leaving port, as it was on the seas more especially, "mid storm and strife" of the elements, its virtues were first manifested, and its worth tried and abundantly tested by a Ship Surgeon, and that too, while in the West Indies, where it is usually more fatal and rapid in its course than in any temperate climate. The motion of the ship also, from his observation, always aggravating the symptoms, and therefore baffling the best well known efforts to relieve and save, in the severest cases.
☞ Travellers will find, from the compact form in which the powders are put up, that they can be carried in the pocket, or with their wardrobe, in the smallest trunk or valise. When required, are taken in cold water. No hotel proprietor, or Country Merchant, should be without this justly celebrated remedy, as it may opportunely prove themselves in the course of the summer where speedy and certain relief is required by their patrons.

TESTIMONIALS.

An examination of the following testimonials is earnestly invited: they do not purport to have been written in Missouri, Kansas, or some out of the way place, but are from some of the most influential and well known citizens of the city, which, if not, can be found and will personally testify to the extraordinary effects of the Tropical Dysentery Remedy
DEAR SIR—I cheerfully I do not hesitate to say, from my own experience and that of my family, surpasses in its curative effects, all medicines for Bowel Complaints, (especially or children,) in our midst, with the success which has attended its exhibition in private practice. I cheerfully testify to, from my own personal experience, and regret as many others have done, of late years, that you had not earlier made the public acquainted with it as I have often urged you to do, for I have no doubt in Dysentery many valuable lives thereby might thereby have been saved by it.
Respectfully yours,
RUFUS CLAGETT,
Attorney and Counsellor at Law,
No. 16 Wall street.

CROTON POINT, Westchester Co., N. Y.,
April 6, 1863.

ESTEEMED FRIEND—I take pleasure in testifying to the very beneficial effects of your medicine in my family.
A case of Dysentery occurred during the summer of 1863, by which the patient was reduced very low, and although the usual well known remedies were promptly administered, continued to grow worse; but who was completely and effectually restored by the use of your remedy prepared for that complaint.
Subsequently an infant child was attacked with summer Complaint during the hot months, which ran its course unabated, despite all medicine and the skill of physicians for six or eight weeks. There seemed no hope of recovery until your remedy was received and administered when an improvement was immediately noticed, and a permanent cure was effected.
Very truly yours,
RICHARD D. TALCOTT.

BROOKLYN, Sept. 1863.

While confined to my bed in consequence of a very severe attack of bysentery, a friend administered a dose or two of your Remedy. The relief was immediate. I advise all my friends not to be without it; and I know while I have it, with the directions, a Physician need never be called in that usually troublesome and often fatal disease.
Respectfully yours,
JAMES ROBERTSON,
135 Court street, Brooklyn,

BROOKLYN, July 1863.

DEAR SIR—I was taken with a severe attack of Dysentery, and could get no relief from the best advice I could obtain, until accidentally I heard of your medicine. I took it and obtained immediate relief; rode out in the Island, and through my own imprudence in diet, brought on a severe relapse, which was again relieved by the medicine; and I am happy to add, was permanently cured.
JOHN WILSON,
Stillman st., near Myrtle Ave.

EAST BROOKLYN, L. I., June 1863.

DEAR SIR—The effects of your medicine and mode of treatment in my family, I have witnessed with pleasure and astonishment in my own family. The relief was prompt, decided, and effectual in a few hours; and I am happy to acknowledge, that in my humble opinion, if your medicine be administered, and the directions followed, that a cure would be effected in every instance, in a disease usually fatal in the hands of many able physicians. It is equally safe and as promptly relieves the infant, as well as adult. We would not be without it.
Respectfully yours,
JOHN JAY WOOD.

DEAR SIR—The small package of your "Tropical Dysentery Remedy," placed by you in the hands of a friend, a short time previous to your sailing for Australia, abscisately performed a perfect cure in myself and family, who were attacked at different times in the course of the Summer with Dysentery, Diarrhœa, etc. I can, therefore, cheerfully state, for the benefit of those who may be similarly afflicted, that it surpasses in its certainty of relief, any medicine I have ever known prescribed by medical men.
Yours truly,
CLAEKSON UNDERHILL,
Corner Bedford and Park Avenues,
Brooklyn, L. I.

NEW YORK, May 17, 1863.

SIR—The medicine called the "Tropical Dysentery Remedy," as used by the discoverer, who was for six months Physician to Ta'mary Hotel, I know to be all that is above enumerated, which were numerous in our house in 1851. From the number of Cases I formed a stopping with us, it in every instance at once relieved to the satisfaction of ourselves and those afflicted, saving many lives.
Proprietors of Tammany Hall House.

Single Packages 50 Cents.
Agent, SETH S. HANCE,

All persons having claims against the said deceased are hereby warned to exhibit the same, with the vouchers thereof, legally authenticated, to the undersigned, on or before the 22d day of June, 1865, otherwise they may be, by law, excluded from all benefit of said estate.
All persons indebted to said estate are requested to make immediate payment. Given under my hand this 22d day of December, 1864.
ROBERT CALDER,
de23-law4w Administrator.

MEDICAL.

COUGH SYRUP.
COUGH SYRUP.
COUGH SYRUP.

W. H. READ'S COMPOUND SYRUP OF LIVERWORT, for the cure of Coughs, Colds, Croups, Asthma, Hoarseness, Bronchitis and Incipient Consumption.
THIS SYRUP is one of the most certain and effectual cures now in use, as has been provedby all who have tried it, for it is fair and impartial. There is no class of disease that is more neglected than this; and yet there is none that more certainly and surely undermines the constitution, and leads more rapidly to the grave, than a neglected Cough.
Throwing aside all "*old wives' whims and fables*," and the ABBREVIATED PEMPERINE which has always prevailed in regard to these fatal diseases, the proprietors in conclusion would charge those who would not save their loved ones, when prostrated in consequence of these diseases, to give it a trial; as they feel confident it is a *specific* and no physician will ever be needed in the above named dangerous diseases; one small package often relieving many sufferers.

TO MASTERS OF SHIPS.—To those who do business on the great waters, it is equally as beneficial to the invaluable Ship-master should fail to take it on leaving port, as it was on the seas more especially, "mid storm and strife" of the elements, its virtues were first manifested, its worth tried and abundantly tested by a Ship Surgeon, and that too, while in the West Indies, where it is usually more fatal and rapid in its course than in any temperate climate. The motion of the ship also, from his observation, always aggravating the symptoms, and therefore baffling the best well known efforts to relieve and save, in the severest cases.

An examination of the following testimonials is earnestly invited; they do not purport to have been written in Missouri, Kansas, or some out of the way place, but are from some of the most influential and well known citizens of the city, which, if not, can be found and will personally testify to the extraordinary effects of the Tropical Dysentery Remedy
DEAR SIR—I cheerfully I do not hesitate to say, from my own experience and that of my family, surpasses in its curative effects, all medicines for Bowel Complaints, (especially or children,) in our midst, with the success which has attended its exhibition in private practice. I cheerfully testify to, from my own personal experience, and regret as many others have done, of late years, that you had not earlier made the public acquainted with it as I have often urged you to do, for I have no doubt in Dysentery many valuable lives thereby might thereby have been saved by it.
Respectfully yours,
RUFUS CLAGETT,
Attorney and Counsellor at Law,
No. 16 Wall street.

CROTON POINT, Westchester Co., N. Y.,
April 6, 1863.

ESTEEMED FRIEND—I take pleasure in testifying to the very beneficial effects of your medicine in my family.
A case of Dysentery occurred during the summer of 1863, by which the patient was reduced very low, and although the usual well known remedies were promptly administered, continued to grow worse; but who was completely and effectually restored by the use of your remedy prepared for that complaint.
Subsequently an infant child was attacked with summer Complaint during the hot months, which ran its course unabated, despite all medicine and the skill of physicians for six or eight weeks. There seemed no hope of recovery until your remedy was received and administered when an improvement was immediately noticed, and a permanent cure was effected.
Very truly yours,
RICHARD D. TALCOTT.

BROOKLYN, Sept. 1863.

While confined to my bed in consequence of a very severe attack of bysentery, a friend administered a dose or two of your Remedy. The relief was immediate. I advise all my friends not to be without it; and I know while I have it, with the directions, a Physician need never be called in that usually troublesome and often fatal disease.
Respectfully yours,
JAMES ROBERTSON,
135 Court street, Brooklyn,

BROOKLYN, July 1863.

DEAR SIR—I was taken with a severe attack of bysentery, and could get no relief from the best advice I could obtain, until accidentally I heard of your medicine. I took it and obtained immediate relief; rode out in the Island, and through my own imprudence in diet, brought on a severe relapse, which was again relieved by the medicine; and I am happy to add, was permanently cured.
JOHN WILSON,
Stillman st., near Myrtle Ave.

EAST BROOKLYN, L. I., June 1863.

DEAR SIR—The effects of your medicine and mode of treatment in my family, I have witnessed with pleasure and astonishment in my own family. The relief was prompt, decided, and effectual in a few hours; and I am happy to acknowledge, that in my humble opinion, if your medicine be administered, and the directions followed, that a cure would be effected in every instance, in a disease usually fatal in the hands of many able physicians. It is equally safe and as promptly relieves the infant, as well as adult. We would not be without it.
Respectfully yours,
JOHN JAY WOOD.

DEAR SIR—The small package of your "Tropical Dysentery Remedy," placed by you in the hands of a friend, a short time previous to your sailing for Australia, abscisately performed a perfect cure in myself and family, who were attacked at different times in the course of the Summer with Dysentery, Diarrhœa, etc. I can, therefore, cheerfully state, for the benefit of those who may be similarly afflicted, that it surpasses in its certainty of relief, any medicine I have ever known prescribed by medical men.
Yours truly,
CLAEKSON UNDERHILL,
Corner Bedford and Park Avenues,
Brooklyn, L. I.

NEW YORK, May 17, 1863.

SIR—The medicine called the "Tropical Dysentery Remedy," as used by the discoverer, who was for six months Physician to Ta'mary Hotel, I know to be all that is above enumerated, which were numerous in our house in 1851. From the number of Cases I formed a stopping with us, it in every instance at once relieved to the satisfaction of ourselves and those afflicted, saving many lives.

MEDICAL.

COUGH SYRUP.
COUGH SYRUP.
COUGH SYRUP.

W. H. READ'S COMPOUND SYRUP OF LIVERWORT, for the cure of Coughs, Colds, Croups, Asthma, Hoarseness, Bronchitis and Incipient Consumption.
THIS SYRUP is one of the most certain and effectual cures now in use, as has been provedby all who have tried it, for it is fair and impartial. There is no class of disease that is more neglected than this; and yet there is none that more certainly and surely undermines the constitution, and leads more rapidly to the grave, than a neglected Cough.
Throwing aside all "*old wives' whims and fables*," and the ABBREVIATED PEMPERINE which has always prevailed in regard to these fatal diseases, the proprietors in conclusion would charge those who would not save their loved ones, when prostrated in consequence of these diseases, to give it a trial; as they feel confident it is a *specific* and no physician will ever be needed in the above named dangerous diseases; one small package often relieving many sufferers.

TO MASTERS OF SHIPS.—To those who do business on the great waters, it is equally as beneficial to the invaluable Ship-master should fail to take it on leaving port, as it was on the seas more especially, "mid storm and strife" of the elements, its virtues were first manifested, its worth tried and abundantly tested by a Ship Surgeon, and that too, while in the West Indies, where it is usually more fatal and rapid in its course than in any temperate climate. The motion of the ship also, from his observation, always aggravating the symptoms, and therefore baffling the best well known efforts to relieve and save, in the severest cases.
☞ Travellers will find, from the compact form in which the powders are put up, that they can be carried in the pocket, or with their wardrobe, in the smallest trunk or valise. When required, are taken in cold water. No hotel proprietor, or Country Merchant, should be without this justly celebrated remedy, as it may opportunely prove themselves in the course of the summer where speedy and certain relief is required by their patrons.
