WAR-THE COMING TAX BILL.

[From the Richmond Dispatch, Jan. 34. We think it certain that General Breckinridge has been appointed Secretary War, though his appointment has not yet

It is said that Mr. E. M. Bruce, of Kentucky, is to be Commissary General. He is spoken of as possessing peculiar fitness the Commissary Department will be immeasurably decreased. There will then be no necessity for impressments. It being once known that the government is giving the highest market price, the hidden stores of the country will be crowded into

the market. In this connection we may mention that the House Pinance Committee are now perfecting a sweeping tax bill, which will be ready to take the redundancy of the currency that would otherwise be created by the immense sums necessarily disbarsed by government if it pays market price for property taken for public use.-The Tax bill will raise seven hundre: million dollars, and a discount of fifteen per cent is to be allowed for prempt pay-

> THE OIL DISCOVERY IN CHICAGO. One year ago a number of citizens of pose of boring for oil in the stone quarty on Chicago avenue, at the extreme limit : if the city. After going through differ ent strata of stone and clay, and when a the depth of seven hundred and eight feet, a subterraneau lake of pure wate instead of oil, was reached, which ha croved the finestartesian well in the West - terprise

The projectors of the well, after submit ting to much ridicula, on the 9th of Janu ary commenced boring another well about thirty feet east of the original well. The same geological formations were encountered as in the old well, save perhand that the indications of oil were more marked. At a depth of thirty-three feet. the oil became quite abundant, flowing apparently from a seam in the limestone The drill was kept at work until a depth ing but water, the pump suddenly conmenced throwing oil and water, the preportion of oil growing greater and greater with each stroke of the pump! There were provided no versels in which to save the oil, and after pumping some half at

hour, and raising about half a barrel, the our ping ceased. The company are now constructing vats The pumping will be resumed semetime this week, and judging from the quantity raised on Pressing last, says the Pemera by predict that the well will yield treater fifteen to twenty barrels per day. drill, as it passes down, clogs up the scame in the rock through which the oil dows, siturezect Namerk, include gathe Hayer and liment is removed sufficiently to allow of free passage of the cit.
