READ'S COMPOUND STRUP OF LIVERWORE, for the cure of Covers Octos, Oroups, Astrna, Hoarshipess, Brou-CRITIS and Inciding Contradition. This SYRUP is one of the most certain and effectual cures now in use, as has been proved by all who have given it a fair and impartial trial. There is no class of disease that is more neglected than this; and yet there is none that more certainly and surely undermines health. Many a neglected Cough has been but the precursor of long years of suffering ; and many a Cold that has been permitted to run its course, has harried its victim into the rremature grave of the Con samptive. Every one knows that we bu utter the truth when we say that a very little care and attention of first would have warded of that dreadful handmaid of death-Consumption-from many a coe who is now lingering beneath its tortures. Be careful then ! A.L. how you neglect that Cough or Cold upon which you now look so lightly, and remember that a tride expended upon some good Court Remedy may preserve your lite.
