OF SPACE THE LABOR QUESTION IN MARY-LAND-WHAT IS SEEDFUL FOR

ALL CONCERNED. It was our good fortune, recently, at a personal interview with one of the most public spirited and enlightened men of the times, to hear views advanced in relation to the management and prospects of the i newly emancipated colored race on this; continent, which we deem eminently worthy-from their practical bearing-of being reproduced and spread before the people of Maryland. With great problems in political economy yet to be solved, problems such as have made the wisest and most resolute falter when called upon . to grapple with them, counsel from any quarter should be earnestly welcomed; which may throw light upon them. The great responsibility has deveolved on her to be one of the first States, practically, to solve the problem so often propounded-What can be done with the colored population, when emancipated, to induce them to contribute their full share, as heretofore, to the wealth of the community, and not become a bur-

prehended that they may! This practical and highly important question proposed to me in South Caro lina, twenty years since, has been the subject of frequent and careful examination. Mature reflection has served to confirm in my own judgment the soundness of the answer there given to the enquiry, which was based on the hypothesis of prospective, conditional, and moderately compensated emancipation, by common consent. Having hastily and very imperfectly expressed, my views on this subject to you in a recent conversation, and which appeared to meet with your cordial concurrence, I have thought in consideration of the wide influence which your paper is destined to exert on the public sentiment of your State, it might be well for me thus to present them to you more fully than cirthat however as parently imperfect or commonplace, they may be considered not

wholly unworthy of consideration. And first I assume the probability that erally be more susceptible to the stimulating influence of wages than has been supposed, and as already has to some ex. tent been proved. But to whatever degree this fails to lead to such a result, it becomes at once a duty and necessity to prowide for the unfortunate class of laborers, who either will not, or cannot procure employment and subsistence for themselves. ASTHMA. Ma. Wm. H. READ: Dear Sir-I wish to inform you by this writing that I have been suffering with Asthme in ti worst form for 20 years, spending within that time hundreds of sleepless nights in the most sufering manner. Everything falled to give relief until I obtained a box of HASHERSH CAN. DY, which proved the most wenderful consure agency lever used, relieving me immediately whenever attacked by the disease. Often I have been so severely attacked that I could with great difficulty breathe at all, and was iscapable of ying down at night, having such terrible smoth ering sensetions. Wedical men of all echools falled to afford the least relief. Without much hone I resorted to this wonderful Candy in Jan-

nary, 1864, ever since which time I have slept

without the least trouble by using some when-

ever threatened by an attack, and am thankful that such a remedy is to be found. I recommend it to all afflicted by Asthma, Rose Cold, Hey Fever, or diseases of that class. JOHN R.
