ONE SQUARE CONTAINS SIX LINES OF SPACE

A MUCH NEEDED PUBLIC INSTITUTION

The people of Maryland are very few of them aware that the beginning has been made in Baltimore for the establishment of one of the most needed and creditable benevolent institutions of the times...

The communication that follows this, tells the story of the Home as conceived only in part. What the limited establishment already being in existence in Baltimore and what for its daily expenditures, and what on the small scale attempted, it has been so far a success, let the people of Maryland let the Legislature of Maryland, indeed, before it adjourns, take this matter in hand, and by the appropriation of a fund large enough...

Meanwhile—and until something more permanent and on a larger scale can be attempted, let our citizens heed the earnest appeal which follows:
