**MEDICAL.**

A. HUET, Graduate of the Medical Faculty of Paris, and of the Royal Hospital and Charitable Faculty of Baltimore, Md., is the discoverer of the only safe and certain remedy for Disease of the Nerves and Nervous Drugs. He has been in practice in Paris for many years, and has had the confidence of all the distinguished Physicians of France. His practice of 40 years has proved beyond a doubt, that the disease readily yields, and often disappears entirely, from the system, especially all cases of constitutional nervous disease, nervous debility, nervous prostration, practices which strain both body and mind, causing fatigue for others, those who are suffering will effects of improper indulgence, especially relating to material health and vigor, in a period of 40 years, and the cost is less than **one-half cent per day.** No medical expenses or charges. Fees concealed by law, and parades, and fees concealed in the most secret and private manner.
