WASHINGTON NEWS.

WASHINGTON, June 7.—Secretary McCulloch is engaged in restoring the machinery for the collection of customs in the Southern States, and in this connection the President has recently made the following appointments:—Collectors: Willing Woodbridge, at Savannah; Albert G. Mackie, at Charleston; Robert Menzies, at Mobile; and John W. Hicks, at Pensacola.

Mr. Harrington, Assistant Secretary of the Treasury, who has been appointed Minister to Switzerland, will not probably leave this country before the 1st of August. A strong application has been made to the President in favor of Mr. B. Field, the other Assistant Secretary of the Treasury, for a reassignment, probably to the position of Minister to Switzerland. Not only prominent and influential gentlemen of New York, but other points of the country join in the request. It is the opinion of the officers of the special iron clad squadron which was sent to watch and capture the Stowaway before she was surrendered to the Cuban authorities, that she is a formidable as was supposed, and that either Monodock or Comanic, which by off Havana, was more than a match for that rebel ram. The opinion has been expressed to the Navy Department, after a careful survey of the Stowaway, Acting Vice Admiral Goden, having no further business connection with the above mentioned special squadron, has proceeded to the Brazilian station, of which he has command, on his flag-ship, the Stowaway.

John S. Nicolay, private Secretary to the late President Lincoln, was in Washington today making arrangements to leave for Paris on the 25th inst., to enter upon his duties as Consul at that city.

The President usually received visitors for about five hours daily, being kept nearly all that time upon his feet. To-day, at two o'clock, there were at least a hundred persons, one-fifth women, impatiently waiting for an audience. Within a day or two the President has given audience to prominent citizens of Alabama, Mississippi, and Georgia, in relation to the political affairs of the respective States, and looking to a reorganization of the Union.

REVIVAL OF TRADE AT WASHINGTON, D. C.

PHILADELPHIA, June 7.—The Wilmington Herald of the 31st instant says, it is surprising to those who have seen in the city since its occupation by a Union army, and who formed a very unfavorable estimate of the amount of articles of trade here, to witness cart and dray loads of cotton, rosin, &c., now being stored in warehouses for shipment to Northern markets. Where it comes from, no one knows. Ten days ago all kinds of vehicles for hauling could be found in hundreds on the streets, but since the removal of restrictions on trade not one to be seen unemployed—all are busy hauling.

THE COURT AT WASHINGTON.

There is character in all their acts, but they are not to be taken as a whole.

There is a striking contrast between the "thousand thoughts" and a towering forehead, a mouth expressing great resolution, and a pair of eyes that seem to look straight into the soul.

His associate, Judge Bingham, is a small, thin, black-haired man, with a somewhat stern and black-eyed, with a mouth of stern aspect. The other members do not prominently during the trial, but they are not to be taken as a whole.
