THE CLIPPER IN FREDERICK, MD.—Citizens of Frederick and vicinity wishing the "Daily Clipper," will be promptly served by leaving their names at the news depot and variety store of David F. Smith, our only agent in Frederick.

OUR ADVERTISING AGENT.

Our advertising agent for the city is Captain William Gibson, who will, as he finds opportunity, call upon the old patrons of the Clipper, and to whom any favors in the advertising line can be handed. Our patrons will find him entirely reliable.

A FEW MORE HOME TRUTHS FOR THE CITY.

The troubles upon this community appear to multiply with the return of peace rather than diminish, proceeding from "divided councils" or divided interests. We took occasion recently to arraign for public condemnation that spirit of faction which contesting the chances of obtaining a few petty offices, wasted superior energies in a war of the "ins" and the "outs;" a contest in which the masses of the people could not possibly have any particular interest; and we called upon the leading business men of the community to do what it seemed the politicians by profession would not do—step forward to re-establish the old trade relationships, which existed previous to the war betwixt this and neighboring communities.

Well, the attempt has been made, and, as it appears, with quite a chance of success, *in one direction*. Certain gentlemen have called a meeting, and after stating the necessities of the case, have subscribed largely to a fund for the relief of certain people in the revolted States who have suffered in a marked degree from the calamities incident to the war. On the face of the movement, it would seem that this was every way commendable.—But the objection is made that this undertaking is sinister in its character, that *the society is, or will soon become, political*, and that one purpose is to make this a bid for Southern patronage in *that particular line*, and that as such—finally—true Union men ought to have little or nothing to do with it!

Now there may be good foundation in fact for much of this, and so far as it is true, the movement is certainly open to censure. But if it be true indeed that this merchant of secesh proclivities has given one hundred dollars and that one five hundred of like affinities in the rebel States, in the name of all that is politic and praiseworthy as well as charitable, let our Union friends fall to work and *emulate them*, and in that way the whole ground for humane and christian as well as prudential effort will be occupied. The fact that the secesh contribute to relieve secesh, should not prevent Unionists from relieving Unionists, if it is finally determined by either or both that it is impossible even in a thing as vital to the credit of the city as this, to take care of its good name; and for the rest, there is little danger but that, speedily, those who yet make it a merit to sympathize with a cause now from its enormities the scoff and abhorrence of the whole world, will gladly repudiate all affiliations with it, will be glad, ere long, to be known as anything else whatever, than of those who attempted to destroy free government under the lead of such a contemptible tyrant and coward as Jeff. Davis.

Moreover, and since we are upon the topic, let us present a few more home truths. We have no patience and no sympathy with the complaints of certain assumed zealous Unionists here. They may pour forth their sentimental Unionism to any degree they please, but they do not "show their faith by their works." And if these persons desire to know what test we have for judging them, we shall—since this matter is under discussion—freely mention it. Our paper has long been known as a consistent and true Union sheet, if nothing more; whilst certain other prints here have been anything else than this. And to our contemporaries of the press in question, we would say—we mean in this to make no invidious comparisons, but merely to state a fact patent to the whole community. They have been consistent in their course—we in ours. But here are assumed zealous Unionists we say, prominent merchants and politicians, whose habit has been, and yet is, to walk right by this office to those we have indicated, to overwhelm the latter with their advertising patronage, patronizing us meanwhile simply and upon occasion with their advice, or with long winded communications to be published at our expense, and which could have no showing whatever at the offices in question. And these are the ones who in many instances desire us to take up the cudgels for them, wish us to overhaul their offending neighbors. We say again let them prove to us their "faith by their works;" their Unionism by encouragement to the press that has been fighting in the cause they profess to sustain. Otherwise let them emulate—we say again—their secesh neighbors in being politic with a show of generosity and charity, if they cannot be consistent in their assumed exhibit of patriotism.

We presume this will be regarded as a good deal like "talking out in school," but we have not hesitated to do it from the fact that out of so many heterogenous and conflicting elements, there is little chance of getting any well combined effort to help the city. Whilst the politicians wrangle over a very small basket of "loaves and fishes," certain of the great merchants of the city watch their competitors through their keyholes, busying themselves with calculations as to which may get the start of the other, instead of all combining to rouse the city from that deadly letpor which holds it in thrall, and which, as it seems, will not be thrown off. It is high time some one came to the determination to tell them the truth, instead of flattering their prejudices and soothing them into deeper slumbers. Had not the Government recognized in some sense our course as a Union sheet, and stood by us instead of leaving us to rely upon the assumed Unionism of this city, the latter might very likely have escaped these deserved, if not timely reminders, and a manifestation of independence which may be unwelcome, but which some one ought to exhibit.

Then we say again,—let the secesh go on and get us some trade, show some generosity, do *something*, *any* thing, if the other side will not. The third city of the Union, and what have we got to show for it? A couple of hotels which might be stuck into a corner of the Continental of Philadelphia, or the Fifth Avenue of New York, a couple of theatres, and the Mechanic's Institute; and if we have at last the prospect of an opera house, in which to entertain visitors to the city, that is an *exotic* as it were, and to be credited to the enterprize of our German population instead of to our own.

However, and finally, we do not despair. Every day we are receiving new accessions of population, *new blood and enterprise*, which in the end will be sure to tell. Old fogyism will in the end have to stand aside, and disloyalty will at last have no showing whatever. Let us live on then, in hope. We have an energetic government close by which will not forget us even if we forget ourselves, and we are greatly mistaken, further, if in the interests of true Unionism, Andrew Johnson does not apply some corrective to that condition of things here, which is so far from creditable to those who assume to control public sentiment.

FRONT STREET THEATRE—Ten Nights in a Bar Room.

WHAT THE LADIES SAY OF IT.—In the entire history of cosmetical preparations, we for the first time find ladies publicly acknowledging the value of a beautifier of the skin. That a lady ever said anything of the kind was a fact carefully concealed. That only concerning the value of the preparation called Ennui de Paris that we find such testimony on record. This is because L'Ennui is neither paint, powder nor compound of arsenic or mercury, but a delicious preparation, which, acting specifically upon the scarf-skin, dissolves freckles, tan and sunburn, rendering it soft, white and transparent. Mlle Vestvali, Mrs D. P. Bowers, Miss Lucille Western, Elise Lund, and other ladies of equal note, commend it to their sex. Ladies visiting the sea shore or country should use L'Ennui, for removing the effects of sun-burn, salt-air, etc. Sold by all Druggists, Perfumers, Hair-Dressers and Dealers in Toilet goods. Wm H. Reed, 147 Baltimore street, General Agent.

IS YOUR LIVER OUT OF ORDER?

It is a difficult thing to keep the liver in good order in this changeable climate. It sometimes is too active, and sometimes too indolent: in either case a disordered system is sure to be the consequence. Your liver must act with regularity if you enjoy health; and to restore that regularity of action when lost, there is nothing so effective as Radway's Regulating Pills. A disordered liver leads to quite a number of serious disorders. The jaundice, the hemmittence fever and ague, and many other bilious affections all accompany such a condition of things. Resort immediately to the use of Radway's Regulating Pills. They never fail to remove the cause of all such trouble. They are compounded of the rarest medicaments known to pharmacy, the very essence of which, and not their coarser substances, are employed by Dr. Radway. Hence, his regulating pill may have a peculiarly subtle power in thoroughly searching out diseases, and expelling it from the sphere of every embarrassed organ. They do not distress the delicate coats of the stomach, occasioning gripes, pains, tenesmus, and so on, by their irritating operation, as too many other pills do. They purge gently, regularly, and without straining. They leave no weakness behind them. They are pleasant to take, and cost but 25 cents a box—a quantity which may last you for six months, and will be found useful in many of the ills that flesh is heir to," besides liver complaints. Your biliousness will vanish as soon as you take a dose or two. Your discolored liver will be restored to a proper sense of its duty. You will be well man or woman. Sold by druggists. je12-d&w3w

CONCERNING
FARMS IN MARYLAND.

MARYLAND FARMS FOR SALE
IN EVERY COUNTY.

From $1,000 to $60,000 and Upwards.

The following is a partial list of Farms I have now for sale, comprising some of the most valuable Tracts and Finest Estates in Maryland:

FARM of 255 acres situated in Howard county, on the county road three miles west of the Relay House, 10 miles from the city of Baltimore. It is approached from the Washington turnpike on the south and from the county road from the west and north. The land is in good condition, twenty-five bushels of wheat per acre and other crops in proportion, have been raised; has an abundance of pure spring water and is considered one of the healthiest places in the State; has an abundant supply of fruit of all kinds, about 2,500 trees just coming into bearing this season. The garden of about 6 acres has a large supply of grapes of various kinds; raspberries, currants, strawberries, dwarf pears, &c., &c. Two never failing streams of pure spring water pass through the place, one of which runs the house which supplies a large pond from which the ice house is supplied with ice. The improvements are a stone rough cast dwelling house 54 by 60 feet with very large back buildings built in the most substantial manner 6 years ago by the then owner for his own occupancy, and no expense having been spared to make it complete in every respect. A wide piazza extends the whole front of the house. The first floor consists of a parlor, sitting room, dining room, library room, a large and substantial fire proof safe, and wide hall running through the centre of the house, safe room, large winter and summer kitchens, and wood house on same level. Second floor contains six large chambers in main building, two bed rooms, bath room, &c., in back building; every room except the parlor have large and very convenient closets; hot and cold water throughout the house, bells in each room, also gas pipes throughout the house; a large, dry cellar under the whole house; Chilson's largest size furnace, in the cellar of the house; cooking range, &c., in kitchen; in short, every convenience usually found in a modern built house. The house stands on an elevated position from which nearly all parts of the farm, and from its roof the city of Baltimore, as well as the surrounding country for many miles can be seen, and is surrounded by oak, chestnut and walnut trees of large size, as well as a profusion of evergreens. The other improvements consist of an ice house 20 feet square, now filled with the purest ice, two large dwelling houses, one of the best constructed barns in the county, 81 by 50 feet, which is supplied with water, overseer's house, gate house, &c. The two houses and corn crib are of unique construction and considered to be superior.

FARM OF 119 ACRES on Mill Creek, two miles from Annapolis, 120 acres under cultivation, balance in timber. The soil is rich, and adapted to the growth of grain, fruit and vegetables. Would make a fine truck farm.
