

SEWING MACHINES.

The Lawrence American Sewing Machine Perpetual is the greatest invention ever made. It makes four distinct classes with the same machine. Besides, it has the reversible feed motion—a uniform sewing-regulating tension—no binding, no binding or jams to get out of order.

It does all kinds of Family Sewing, from the most delicate to the most durable, using all kinds of Blue, Cotton and Linen Thread. No other machine can do such a large range of work as the Florence. No other machine in the world is so perfectly perfect. Family Sewing Machines warranted to give satisfaction for years. The cost of the machine will be paid by the Florence would sell at cost.

Calls and see its operations, whatever you may want to know about it.

SEWING MACHINES.

On all sides we hear the merits of the GROVER & SAKERS' CELEBRATED SEWING MACHINES, and yet to us it is so many undesirable facts that we are bound to confess our conviction of the truth of their claims. We will endeavor to be as briefly, bold as eloquent, here, families, girls, every one, especially young ladies, to see clearly! None, we call and examine the Mechanics and Work.
