THE CORFISCATION ACT IN VIK-OIBLA. The following letter to the President, in regard to initiatory proceedings under the Confiscation act against citizens of Virginia, was yesterday morning presented to him. It is not known yet what action the President will take in the premi-WASHINGTON, July 21, 1865.

To his Excellency Andrew Johnson, Presideat of the United States. SIR-As President of the National Bank of Virginia, at Richmond, I have had occasion to know and feel the unhappy effects of the present condition of things upon the business and prosperity of the people of that State. I am sensible that this great misfortune is wholly attributable to the late rebellion against a wise and paternal government; and I would by no means presume to interfere with the policy which I doubt not, with the most palriotic intentions, you have adopted. But I beg leave to make one suggestion, and to ask one favor for the people of Virginia, which I think will not interfere with the ultimate justice of the government, while it will contribute greatly to the relief of these citizens who are destined eventually to receive pardon and

amnesty at your hands. The measure which I ask you to adopt is merely a suspension of legal proceedings for the confiscation of property until such time as you shall be prepared to act on the applications which shall be made to you for the exercise of your clemency in the premises. It is the public expectation that the mass of those who took up arms against the Government, and who are now excluded from the benefit of the general amnesty, will finally be pardoned. It is a severe punishment, and a serious evil to them that they are held in anspense; but I beg to say that the actual commencement of legal proceedings, superadded to the uncertainty of their final condition, is a great aggravation of the trouble, which I hore you will consider unnecessary. All that I venture to ask in the name of the people of Virginia is, that these proceedings for confiscation may be suspended until the question of pardon in individual cases can be determined.

I have the honor to be, most respecttully, your obedient servant. MR STANTON AND PRESIDENT BUCHANAN.

Ex-Governor Washburne's oration at Portland on the Fourth of July, contains the following:-"And that no example might be wanting to illustrate the degeneracy of the times and the perfidy of the public men. who, at such a period could alone occupy the high places of power, it was found that an administration of the people's choice, and representing what appeared to be the average opinion and sentiment of the country, had deliberately set itself to the work, in concert with open traitors, of betraying and destroying the Government it had been appointed and sworn to preserve. And so well were its plans laid for the accomplishment of this flagitions purpose that they could scarcely have failed, if not to accomplish the end designed, still to have produced such complications and given the Rebellion subscriber has obtained from the Or such additional advantages as would phans' Court of Baltimore city, letters of ad- liave tendered the preservation of the ministration on the cente of GEURGE Union, if possible, a matter of vastly All persons having claims against said de greater difficulty and cost than it has ceased are hereby warned to exhibit the been, had it not been for one of those same, with the vouchers thereof, to the sab fatal blunders which, under the overscriber, on or before the lith day of January, ruling hand of Providence, men engaged ctuded from all benefit of cald estate.
