A SONG OF A SLATER.

Upon the church roof perched so high,
The white clouds are my company;
Far down below the shadows fly,
Across the dewy grass;
And through the belfry, in and out
A cheery wind is making rout;
It blows the pigeons all about,
And flutters them amain.

Down there, beyond the plum-tree row,
There is a garden—well I know,
Where vines with purple grapes aglow
Encase a garden door.
See, from that nook of leafy shade
Into the sunlight Eliza's made;
I hold my breath as half afraid
Of seeing her no more.

But on she glides, her sunny head
Now gleams above her flower bed;
Now, veiled in dappled dimness shed
Through lacing branches, glows;
Now, at the porch she will be seated;
One moment turns her face this way,
One moment brightens all the day,
Then into darkness goes.

And there beyond my own home lies;
My little brothers' voices rise
Among the trees; and mother's eyes
I know are turned this way.
A hundred happy homes lie round,
And in them all my friends are found;
What more is in this garden ground
I have no heart to say.

[Correspondence of the Baltimore Clipper.]

TOWSONTOWN, Aug. 31, 1865.

The court now in session at this place has before it a considerable amount of business for dispatch, one greatly it is supposed it will be a very lengthy term. The number of cases appearing on the removed criminal docket for exercise that of any term for a considerable number of years past; besides, the county criminal docket is quite lengthy.—Among the important cases appearing upon the different criminal dockets are those known as the "Mount Hope cases," comprising a number of indictments; there is also one case for murder, a few trivial and petty larceny cases, besides a number of other important cases, such as arson, conspiracy, riot, robbery, &c.

The Court house, during the interval between the last term and the present, has been considerably improved, by the removal of the old rickety roof, and its replacement by a substantial slate roof.

The breach in the jail, made some few weeks since by the parties who effected their escape thereby, has been repaired; though the jail is so insecure as to compel the warden, Mr. Wiley Hunt, as informed by him, to confine the prisoners in the cells both day and night, and to keep continually a "watch" upon them. This certainly should be remedied. The number of prisoners now confined within its insecure walls is some twenty-two, the larger number of whom were brought up from the city jail at the beginning of the present term of court, whose trials have been removed to this court.

The arrangements of the Baltimore and Westminster Railroad, since the completion of the Reisterstown road, are giving universal satisfaction to the numerous patrons of the road, who are loud in their praise of the commendable spirit thus shown by the General Superintendent of the road, Henry Tyson, Esq. JUNIUS.

SETONIZATION AS A CHECK FOR CHOLERA.

Sir James Simpson, the well known medical author, suggests the immediate recourse to setonization as a prophylactic for cholera. The philosophy is to raise the pulse, and keep it so, during about thirty or forty days, during which time the epidemic is at its greatest height in any locality. He thinks its introduction in armies should be immediately commenced, together with other sanitary and medicative treatment, together with isolation. We believe the utility of setonization has been much discussed in Europe for several years. It was agitated in the Academy of Sciences, in Paris, by authority of Napoleon III, in 1854 and 1855, during the Crimean War. The London Lancet of 1856 speaks of it, as also the London Times and several of the leading journals of France and Europe. The views as discussed then, and referred to in 1863, now ten years since, from experiments and notes made of the practice during cholera outbreaks, and its use in Bombay, Calcutta, &c., are these:

First—That during the prevalence of cholera, it frequently happens that in every one, all being more or less poisoned by the deleterious choleraic vapors of the atmosphere, the pulse is extremely low, and reduced from forty five to forty two in persons apparently in perfect health.

Second—That this symptom is unaccompanied by any other denoting morbid state.

Third—That when the pulse is low, the blood becomes dark and viscous, while in persons whose pulse is in a natural or normal state during the epidemic, the blood is perfectly healthy.

Fourth—The cholera only attacks those that have previously experienced a diminution of their pulses.

Fifth—That this diminution, which often occurs before the regular attack, may be considered a pathognomonic of the approach of cholera.

Sixth—That those who have experienced the treatment in question have always escaped the disease whenever they have followed those means calculated to accelerate the circulation.

Seventh—That the falling off in the pulse, and, therefore, the predisposition to the disease, are in general proportion to the want of energy in the circulation of the blood, and to the excess of atmospheric pressure.

Eighth—That this diminution does not occur in healthy subjects when the epidemic has ceased. Hence the utility of the proposed preventive means of setonization to raise the animal heat in the vital economy, preventing the development of the disease under any form, producing its powerful derivative action on the human body, and thus disarms the terrible scourge of its terrors, and will save human life. The soldiers and masses everywhere it has been tried and experimented on have faith in its efficacy and confidence in its beneficial results. That is more than half the battle.

GEN. BEAUREGARD.

Gen. Beauregard is at this time living quietly at his own house at New Orleans, which, when he claimed it, on his return lately, was restored to him. This reminds us that three years ago Gen. Beauregard wrote the following letter which was at the time published in the South:

"BLADEN, Ala., August 3, 1862

"My dear General:—I regret much to hear of ——— being wounded. I hope he will soon be able to face the Abolitionists. In this contest we must triumph or perish, and the sooner we make up our minds to it the better. We now understand the hypocritical cry of 'Union and Constitution,' which means, and always did mean, 'spoliation and murder.'

"We will yet have to come to proclaiming this war 'a war to the knife,' when no quarter will be asked or granted. I believe it is the only thing which can prevent recruiting at the North. As to ourselves, I think very few will not admit that death is preferable to dishonor and ruin.

* * * * *

"With kind regards, &c., I remain yours, sincerely,

"G. T. BEAUREGARD,

"Gen. W. E. Martin, Pocotaligo, S. C."

GOOD FOR THE PACIFIC RAILROAD.—Our relations with Japan are said to be on a better footing now than ever, and the difficulties experienced in opening trade are being gradually removed. The people on the Pacific coast feel no interest in this intelligence than we do, and those who have the Pacific Railroad in charge probably as much. The trade with Asia is expected to come over this continent on this Continental Railroad.

CHANCES TO MAKE MONEY.

THE SOUTHERN PLANTATIONS.

In the August number of the National Freedman enterprising Northerners are advised by a writer from Huntsville, Ala bama, to come South and buy farms:

"The people of the South have always been about one century behind the age in improvements. The cotton is still cultivated with the old-fashioned Carter plow, with wooden mould board, and everything else is conducted on the same ancient, old fogy system. Now, let Yankees come down here and buy farms. They can get all the practical information they desire from the negroes, who have been raised, have lived, moved, and had their being in cotton fields. Taking advantage of this information, and exercising his natural ingenuity and talents, he could reduce the expenses of raising cotton at least one-half and raise a greater number of pounds to the acre. Two hundred pounds to the acre is a fair average for this locality.—Now, I believe with proper industry, and the advantage of improvements, the crop may be increased at least one third:

"There is a magnificent plantation belonging to a widow lady, about three miles from this place, with a fine mansion, outhouses and all modern improvements, comprising twelve hundred acres, offered for fifteen dollars per acre. I regard this as a magnificent opportunity for investment. There are a number of plantations to rent, and I will give you some figures in reference to the expense and profits attendant on cultivating them. We will take, for example, a five-hundred acre plantation. According to the closest estimates I can get from experienced men, it will cost $10,000 to run it one year—say from the 1st of January, 1866, to the 1st of January, 1867. Now we calculate a yield of two hundred pounds to the acre, which would be one hundred thousand pounds in the aggregate. Now, estimating this to be worth twenty cents per pound, we have proceeds amounting to $20,000. Deduct from this the $10,000 for expenses and the one-fourth for rent, the renter has a net profit over all expenses of $7,500. Furthermore, it must be considered that, aside from the revenue of the cotton crop, there may be sufficient quantities of cereals and vegetables raised to support the renter and his family.—These are facts without exaggeration. I hope my northern friends will weigh them well. Those who contemplate coming to this locality may rely upon their correctness and accuracy."

AFFAIRS IN WASHINGTON COUNTY.—We glean the following items from the Boonsboro' Old Fellow:

Another Rebel Outrage—The American Flag Torn Down and Trampled Under Foot.—On Saturday last the most disgraceful act ever committed by an inhabitant of this town occurred in the streets in Mr. Hershewer's woods. From what we have been able to learn of this disgraceful affair, it appears that three loyal young men left town in a wagon for the purpose of attending the picnic near Benevola, and, as is quite customary, attached the American flag—the glorious stars and stripes—to their wagon, and started out the pike. After leaving town they concluded to pay a flying visit to the first named place, to see what was going on, and then proceed to Benevola.

Accordingly thither they went, and had scarcely reached the ground before they were approached, and in an insulting manner demanded to remove the flag, by Samuel H. Smith, a notorious rebel sympathizer of this county, and a friend of Copperhead candidates at last fall's election for the House of Delegates, who stated they wanted no such flag there, as they considered it a disgrace. To this ungentlemanly demand the young men refused to comply, stating they wished to create no disturbance, and that in a few moments they proposed leaving. They availed nothing—the flag must come down—and at it Smith went. In his rage he drew back the skirts across his knee, and (our informant states) trampled it under his feet, to which a number of his friends present said "Amen"

Drowned.—We regret to learn that Mr. Patrick Butler, a gentleman well and favorably known in this community, was drowned on Saturday last whilst attempting to ford the Potomac river, opposite Hancock. Although the river is very low, and susceptible of being forded at many points, still there is great danger in attempting it, unless done so by persons well acquainted with the crossings. Mr Butler was for many years manager of the turnpike between Boonsboro' and Middletown, and was much respected by all who had intercourse with him. He was about 48 years of age, and leaves a wife and several children to mourn his loss.

Church Robbed.—The United Brethren Church, at Beaverdam, was entered a few weeks since by some sacrilegious devil or devils, who stole therefrom several lamps, curtains and other church property.

Mad Dogs.—We learn that a number of mad dogs are roaming over this section of our county at present. Several persons in the neighborhood of Keedysville have been bitten by these dogs, and unless properly treated, fears as results may follow.

AFFAIRS IN ALLEGANY COUNTY.—We gather the following from the Cumberland Civilian:

The Coal Trade.—The canal has done a pretty good business, and for the week ending on the 26th, 153 boats left this port for Georgetown, carrying 16,483 13 tons of coal. During the season 1 842 boats have cleared, carrying 199 621 07 tons.

The following payments have been made over the Baltimore and Ohio Railroad during the week ending August 26th:

Cumberland C. & I. Co.	1,921 15
Blaen-Avon Co.	745 19
Spruce Hill (Astor) Mining Co.	446 91
By C. & P. R. R.	
Consolidation Co.	1,159 12
Total	3,358 06
Total of tons forwarded since the list of January last	1,284 09

Fatal Accident.—On Saturday last the body of John Heger, a resident of this city, about forty five years of age, was discovered on the river bank, about four miles west of here.—He was found lying upon the ground with his gun under his head, the blood still warm and oozing from a wound in his head, through which the contents of the gun had passed. An inquest was held over the body by Coroner Spring, and a verdict that deceased came to his death by the accidental discharge of a gun in his own hands was rendered.

The Vacant Judgeship.—Geo. A Pearre, Esq., has been nominated by the Union men of this county to fill the vacancy occasioned on the bench by the death of Judge James Smith.

AFFAIRS IN BALTIMORE COUNTY.—We copy the following from the Towsontown Journal:

Horse Thieves in the County.—There appears to be a regularly organized band of horse thieves in this county, and a number of gentlemen have suffered from their depredations within the past few weeks. On Thursday night of last week Mr. John Plaskitt, residing about a mile and a half from Towsontown, had a valuable horse taken from his stable. Two fellows the stable door were broken, and two men were sleeping in the building at the time the robbery was committed. There were three mules in the stable with the horse, but they were not disturbed. The people of the county have suffered to such an extent by these depredations that some prominent farmers are now engaged in getting up a society for the prevention of horse stealing.

Painful Accident.—John Casper Zink, well known in this neighborhood as a horseman, and who resides near Govanstown, met with quite a serious accident on Sunday night last. A coal oil lamp exploded, scattering the burning fluid over his bed, which took fire and was consumed. In his efforts to extinguish the flames, his left foot was very severely burned. His wife, who resides near by, assisted him in arresting the flames. It was a miracle the house was not burned. Mr. Z. for some time past has been in ill health.

Sales of Real Estate.—On the 24th ultimo, Wm. Duncan, auctioneer, sold the farm of Elias Magers, in the Fifth District, near Black Rock, containing 202 acres, to Mr. Levi Naylor, of the Fifth District, for $22 per acre, making $4,444.

Jacob Strawn, of Jacksonville, Ill., died suddenly on the 24th ult. Starting in farming and cattle buying at an early age, with a capital of fifty cents in silver, Mr. Strawn came to be the king farmer of the State—owning acres spread over almost whole counties, and it was no unusual thing for him to sow a field of wheat or plant corn over a space twice the size of a German kingdom.—He had sheep and kine upon a thousand hills (or would have had if the hills had been there;) he built pretty much the whole of the village of Jacksonville; he represented his district in the Legislature, where he was noted for direct and available good sense, and in all positions filled the lives of a good citizen. His little garden patch, at the time of his death, embraced nearly 35,000 acres, worth at least $1,500,000 without the improvements. He was twice married, and leaves seven sons and one daughter. In person, he was a Daniel Lambert, weighing about 350 pounds. During the war he was an active and liberal friend and supporter of the Union cause.

Crops in Minnesota will be less injured than interested parties represented. There will be an abundant yield of all kinds of grain.

CONCERNING PARDONS.

The following letter, addressed to the Governor of Virginia, by direction of the Attorney General, will be read with interest:

ATTORNEY GENERAL'S OFFICE,
Washington, Aug. 27, 1865.

His Excellency F. H. Pierpont, Governor of Virginia.—Sir: I am directed by the Attorney General to acknowledge the receipt of your letter of the 25th instant, and to say, in reply, that as far as this office is concerned, you have his full authority for saying that the only influence possible to be exerted in the matter of pardons by any agent or attorney, whoever he may be, is to *delay* the petition. All cases coming under the thirteenth exception, and all petty civil officers, having your recommendation, need nothing further—They are approved by the Attorney General as a matter of course. The President declares that any intimation that money can assist a petitioner is a gross insult to his whole office, from himself to his humblest messenger.

I am, sir, very respectfully, your obedient servant,

M. F. PLEASANTS,
Pardon Clerk.

SALE OF TOBACCO.—There was a large sale of tobacco at Moore's warehouse, in this city, yesterday. A numerous crowd of buyers was in attendance, who bid off the weed at the following prices:

Lugs ranged from $5 50 to $9 50. Leaf from $12 75 to $33—the greater portion going over $20 The sale comprised forty-four hogsheads.—*Pittsburg Express, 30th.*

The sporting season out West is just opening, and much commotion is observed among the knights of the ramrod. Prairie chickens are found in unusual abundance.

PROPOSALS.

I. O. O. F.

OFFICE CORRESPONDING AND RECORDING SECRETARY R. W. GRAND LODGE U. S.
BALTIMORE, Sept. 1, 1865.

The undersigned, appointed to the 20th By-law of the R. W. Grand Lodge of the United States, hereby invites PROPOSALS FOR PRINTING the Revised Journal of that body at its approaching Annual Session, to be held in the city of Baltimore, on the third Monday of September, 1865. The printer to furnish the necessary paper, and to stitch and cover the Journal ready for distribution. The printing to be done according to the style of the Revised Journals of former sessions, which may be seen at the office of the undersigned; the matter to be stereotyped, and the plates to be delivered to the Grand Secretary in good order, as soon as the requisite number of copies are struck off, which will not be less than 8000. The proposals are as follows: For composition, pamphlet work, and the figure work, per 1000 ems; for presswork, including the furnishing of stereotype plates, of size uniform with the Journal of Proceedings, from new type. Press work, per token. Folding, stitching and trimming, in good paper covers, per 100 copies. Specimens of paper, with prices marked thereon, to accompany each proposition, and to be addressed to the Committee on Printing of the Grand Lodge of the United States, to be under seal, and to the care of the undersigned, and to be in hand on or before 12 o'clock, noon, of the Third Monday in September, 1865.

The Journal will also be received for printing the daily Journal of the Proceedings of the M. W. Grand Lodge of the United States, at the same session—the Printer to furnish the necessary paper, to fold and stitch the sheets ready for binding. To be done according to the style of the Revised Journal, one copy of which to be placed on the desk of each Representative at the opening of the Morning Session of each day, viz: at 9 o'clock A. M., and the remainder delivered under cover during the day—number of copies to be from one to two thousand. The proposals to be made in the same detail, as prescribed for the Revised Journal, to be sealed, and to be endorsed, at Baltimore, under seal, and to be on hand at least one week before the Session, viz: 11th September, 1865.

DR. BRADSHAW'S INVIGORATING CORDIAL

For General Debility, Loss of Muscular Energy, Diseases of the Bladder, Kidneys, Weakness, Obstructions, Female Complaints, and all other diseases arising from excess and imprudence in life, and removing all improper discharges from the Bladder, Kidneys or other organs, from whatever cause they may have originated, and no matter of how long standing, giving health and vigor to the frame and bloom to the pallid cheek.

JOY TO THE AFFLICTED.

It cures Nervous and Debilitated Sufferers, and removes all the Symptoms, among which will be found Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Dreadful Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Lassitude, Universal Lassitude of the Muscular System, often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruption of the Face, Pain in the Back, Heaviness of the Eyelids, frequently Black Spots flying before the Eyes, with temporary Suffusion and Loss of Sight; want of Attention, Great Mobility, Restlessness, with Horror of Society. Nothing is more destructive to such patients than solitude, and nothing they more dread for fear of themselves; no repose of manner, no exertion, no speculation, but a hurried transition from one question to another. Effects upon both MIND and body can be rectified, and the nervous system healthfully invigorated, where the qualifications of manhood have been impaired.

Price $2 per bottle; two bottles for $3; four bottles for $10; six bottles $12; ten bottles $20; twelve bottles $24.
