ARRIVAL OF THE MORAVIAN.

FATHER POWER, SEPT. 25th.

The steamer Moravian has been sighted with five days later news from Europe.

The steamer Louisiana had arrived out at Liverpool.

The political news from England is unimportant.

The meeting of the Atlantic Telegraph Company had unanimously adopted the Directors' report, and the company, according to the contract made for the construction of new cable next year, the question of raising additional capital was postponed for another meeting on the 12th of October.

The St. Leger race was won by the horse Gladiator, who was the winner at the Derby races.

The London News says that no time will be lost in giving a check to Fenianism in Ireland.

The London Times says that the British ships of war treat the Shenandoah as any other pirate, and hopes that instructions to that effect will be sent to British commanders in the Pacific.

Judah Benjamin publishes a letter in the Times denying that the rebel government drafted prisoners captive and actually writing to the Times on the following day published a letter from a Federal Naval officer denying Benjamin's statements.

The meeting between the Emperor Napoleon and Queen of Spain was of the most cordial character.

General Lamoriciere is dead.

The murder of the Frenchman Ott by Count Erlenberg is being investigated by a commission, and it is stated that France has no satisfaction of Prussia in the murder.

The Fenian movement continued to cause some apprehension. A meeting had been convened in the county of Cork to consider what steps are necessary to be taken in view of the progress of Fenianism movements in that section.

The London Globe says there is not a shadow of reason for calling Parliament together before the usual time.

The London Times says that in the absence of precise information concerning Fenianism, it is impossible to determine what significance is to be attributed to important movements of members of the order, but the amount of repression will be very slight as the feeling of dissatisfaction is entirely confined to the lowest class of Irish people.

The Channel fleet has departed from the Irish coast, but Fenianism had not done with its movements.

The British Parliament has been again prorogued.

The meeting between the Emperor Napoleon and the Queen of Spain at San Sebastian was most cordial.

Important Orders

GENERAL SUSPENSION OF THE COURTS OF THE DISTRICT OF COLUMBIA.

RICHMOND, Va., Sept. 21.—The following important orders will be issued from the department headquarters to-morrow. From these general orders it will be seen that the jurisdiction of the Court of Conciliation in this city has been extended over the entire department:

General Order No. 111
HEADQUARTERS
DEPARTMENT OF VIRGINIA,
RICHMOND, Va., Sept. 21, 1865.

The jurisdiction of the Court of Conciliation of the city of Richmond is hereby extended over the whole Department of Virginia, so far as to enable it to hear and render judgment in suits brought by loyal citizens to recover the possession of real or personal property which has been sold or disposed of by authority of the confiscation laws of the General Government.

By command of
Major General A. H. TERRY,
ED. W. SMITH, Asst. Adj. Gen.

GENERAL ORDERS No. 112
HEADQUARTERS OF VIRGINIA,
RICHMOND, Va., Sept. 21, 1865.

Suits or proceedings in the civil courts of that portion of Virginia which is included in the Department of Virginia, or agents of the United States, or agents of the Freedmen's Bureau, or of the Treasury Department, or of the War Department, or of any other Federal authority, shall be removed to the place where the suits or proceedings are pending, and shall be heard and determined there.

By command of
Major General A. H. TERRY,
ED. W. SMITH, Asst. Adj. Gen.

From North Carolina.

WASHINGTON, Sept. 25.—Col. Samuel Thomas, assistant commissioner for Freedmen's affairs, in an official communication dated "Vicksburg, September 14th," while giving a return for August, says that in Louisiana and Mississippi fifty plantations are leased to one hundred and fifty blacks; also, 130 in Mississippi—113 of them by whites and 23 by blacks. There are 15 acres in eighty-one plantations in Louisiana and Mississippi leased to blacks, and 52,000 acres in the same States in 170 plantations leased to whites.

About one half of the lands leased to whites were abandoned owing to the overflow of the Mississippi. A tremendous pressure is being brought to bear by the returned citizens of all classes to get possession of their property. They are contending with the Freedmen's Bureau and the heads of the different bureaus at Washington, filled with all kinds of misrepresentations in order to effect their purposes. The Colonel says no property has been labeled for confiscation, and that he has made no attempt to distribute lands in small lots to negroes, as he knew it would meet with strong opposition from the white population in the field and in the military force to protect the Freedmen during the term of their lease.

If he adds, the militia are organized as forshabowed by Governor Shreve's proclamation, he has no idea that the freedmen will remain quiet laborers in the cotton fields. They are excited and partially armed. The hope of organizing the labor of the State in such a way that the freedmen will return to the field and recruit the agricultural wealth of the State, as free laborers, seems to vanish with the promulgation of this militia order. In conclusion, he says he hears of but little trouble between freedmen and their employers. Nearly all the colored people of the State working on plantations have been content with and are partially armed. Many inquiries have been made why the interest due on the 1st of November, upon the 5-20 bonds is not participated on the registered bonds. The answer is that the Treasury Department, that owing to the published regulations, the Department is compelled to keep the books open for the transfer of registered bonds until the first of October, after which period considerable labor will be required to make up the necessary schedules for the payment of the interest. This will require certainly to the 15th of October, and possibly to the 20th or 25th of that month. Every effort will be made to get the schedules out as soon as possible, and when completed they will be transmitted to the proper officers, with directions to commence the payment of such interest at once.

There was no excitement among the passengers. The steamer City of New York and Newport lay by her until all danger had passed.

STAMBOURD DISASTER.

OGDENSBURG, N. Y., Sept. 25.—The propeller Buckeye, for Toledo, struck a snag on the St. Lawrence River, and was sunk in seventy feet of water. Three passengers are known to have been lost, and it is feared that three others were also drowned.

Bishop Johns' Address in Favor of Re-Union.

We lay before our readers a brief synopsis of the address of the late Bishop Johns to the Episcopal Convention of Virginia, in session at Richmond, on the 20th of this month.

This address is a most interesting and timely one, and we are glad to see it published in our paper. It is a most interesting and timely one, and we are glad to see it published in our paper.

ADDRESS OF BISHOP JOHNS.

I now proceed to notice a subject which I approach with great reluctance, because it involves so much of difficulty and delicacy. Though its issues are of great moment to the church, it is not one which I can discuss with the freedom which I desire. It is a subject which I have discussed in the past, and I have been reproached for it. It is a subject which I have discussed in the past, and I have been reproached for it.
