LIVERPOOL, Saturday Evening.—It is stated that Donald McKay, the well known American shipbuilder, is in close communication with the Admiralty on the subject of torpedoes, which are to be laid down in the channels of English harbors in case of war.
Mr. Hurley, in addressing his constituents at Oxfordshire, paid a high tribute to the qualities manifested by both North and South in the late war, and contrasted their character most favorably with that of Austria and Prussia in the affair of the Duchies.
Late advices, per Marseilles, report much alarm there, many of the inhabitants fleeing on account of the progress of the cholera.
The Times' Paris correspondent gives a report that the Italian Government, encouraged perhaps by the Austrian action, and by the indemnity accepted by Austria for Luenburg, is on the point of sending serious proposals to Vienna for the cession of Venetia for a sum of money.
The project is said to be supported by the cabinet of France and England.
THE TIMES' AMERICAN CORRESPONDENT reports that the Fenians in America are collecting large funds and sending money to Ireland, and spending money in America in purchasing arms, etc.
The Dublin Express, of this morning, says that after the arrests at the Irish police office last night, orders were issued to all police stations and military barracks for forces to be held ready, in case of any attempt to rescue the prisoners by the populace. A police constable was also stationed in each telegraph office, for the purpose of stopping any message relating to Fenianism.
The latest intelligence says that the Irish police still continue to arrest the Fenians, and the number of prisoners is very large. Among others arrested is a person said to be a Captain in the American army, in whose possession documents and a million were found. On Saturday afternoon the prisoners, escorted by mounted police, were taken to the Police Court to undergo an examination. The result had not transpired. The mob heartily cheered the prisoners, but made no attempt to rescue them.

COUNSEL TO A PAROLED NEGRO.
WASHINGTON, Sept. 26.—In an article published within the last two or three days, a distinguished Southern man, the President urged him to go home and use all his influence with the people and politicians of his State, to elect to Congress only men who are in every way unobjectionable, and who can take the oath prescribed by the act of Congress. From Washington.
THE REPORTED INVITATION TO MR. BRIGHT.
WASHINGTON, Sept. 26.—Hilbert's article has not been necessary to formally contradict, on this side, the European statement that Mr. Bright had been offered by the President a mission to this country in the United States steamer Colorado. He was generally known that the Colorado had but recently reached that quarter as the flagship of Admiral Goldsborough, the commander of our naval forces in European waters, and it was justly taken for granted that she would stay there the usual time unless some extraordinary occasion should sooner require her return. No such occasion has yet happened. Mr. Bright, however, is well aware of the sentiments of the President and people of this country in regard to him. They know that he is one of the very few of the leading statesmen and members of Parliament in England who have taken pains to master the causes of our late struggle, and who have heartily sympathized with the Government in its progress, and at its conclusion. The President, therefore, comes him whenever he might come hither, and it is a cause of regret that he will be detained at home by his official duties, an opportunity for carrying out that welcome wish thereby delayed.

BATTLE WITH THE INDIANS—THE INDIAN RIFLE.
FORT LARAMIE, Sept. 25.—Information has been received today from Gen. Connor's column under Col. Cole, to the effect that it had been encamped near Fort Connor since the 20th. It had 600 horses and 200 mules which were frozen to death in one night. On the 1st of September he was attacked by a war party of Sioux, Cheyokes and Arapahos, on Powder River, but they were repulsed with heavy loss, only being only four killed and two wounded.
On the 31st the Indians appeared in force, and were driven five miles. Next day the engagement was renewed, and lasted till noon, when the Indians were again defeated with great slaughter, their loss being from two hundred to six hundred killed and wounded. The Indians then fled in every direction. Our troops were unable to pursue them on account of the poor condition of our stock. Our loss consisted of one killed and two men wounded. The Indians lost a large number of horses. The Indians again attacked our troops on the 5th, but after a short and spirited engagement, were routed and beautifully "cleaned out." Their force was estimated at 3,000. They lost many of their principal chiefs. Our total reported loss in the three engagements is 7 killed, 10 officers and 2 men wounded. Another battle was expected on Powder River, but the Indians suddenly disappeared. Col. Cole will camp at Fort Connor until information is received from Gen. Connor.
