

FIRST BEACH OBSTACLE OVERPRINT INFORMATION AS OF 12 MAY

NOTE TO COXSAIN OR NAVIGATOR

Buildings, landmarks, especially near the beach, may be discovered before you reach land. Terrain features, therefore, are much more reliable for land navigation than panoramic observations. Observe ridges and broken lines with detail at each end on the shore side of the beach. Obstacles are on seaward side of this sheet. Also on reverse side of Third and Fourth Sheets. Also on Inshore Corridor and Third Sheet.

SCALE: 1:7500 (5 1/2 miles; 1:220 yds.)

VERTICAL SCALE: 1:1000 (100 feet)

UNIT: SEPARATE FOR COMBAT OPERATIONS.

THIS SHEET BECOMES RESTRICTED

OMAHA BEACH-WEST (Vierville-sur-Mer)

Current sheet size is 10 meters square (33 1/3 meters). Map size 6555 x 4450, sheet 71 60 and 71 60 are above mean sea level, which is 13 ft above low water.

SCALE: 1:7500 (5 1/2 miles; 1:220 yds.)
